State of Utah

State Summary

This section focuses on major issues in the FY 2011 budget and FY 2010 supplemental appropriations. The tables and figures show the state fiscal plan by appropriation and sources of revenue.

Definitions:

- One-time appropriations - funds authorized on a nonrecurring basis. The amount is not included in the following year's base budget.
- Ongoing appropriations - funds authorized on a recurring basis. The amount is included in the following year's base budget.
- General Fund - account into which general tax and primary sales tax revenues are deposited. Revenue in the fund is not earmarked by law for specific purposes.
- Education Fund - account into which all revenues from taxes on intangible property or from a tax on income for public and higher education are deposited.
- Uniform School Fund (USF) - a permanent state school fund financed primarily from revenues that are required by law to be expended for public education.
- Transportation Fund - a fund designated by the Utah Constitution exclusively for highway purposes and funded primarily by a tax on motor fuel.
- Restricted funds - funds that are maintained in a separate account for a specific statutory purpose.

By definition, supplemental budget adjustments are one-time. Thus, budget adjustments for FY 2010 that carried forward in FY 2011 are generally listed twice in narratives and itemized budget tables, once as FY 2010 one-time adjustments and once as FY 2011 ongoing adjustments. Budget adjustments for FY 2010 should not be combined with adjustments for FY 2011 to compute total adjustments. Budget adjustments shown for FY 2011 are cumulative.

BUDGET OVERVIEW

The State of Utah has, like the rest of the nation, faced serious economic challenges over the past several years. This budget is a response to these challenges, as well as a recognition that most of the indicators of economic activity have begun to stabilize and recovery is beginning to take hold.

Governor Herbert established the framework for this year's budget when he presented his budget recommendation to the Legislature this past December. His approach was founded on four key budget principles:

- Protect public and higher education
- Avoid exacerbating the budget's structural imbalance
- Retain a healthy balance in the State's reserve accounts
- Balance the budget without tax increases

In balancing the budget, the Governor and the Legislature focused on a balanced approach by further reducing agency budgets, using money from the State's Rainy Day Fund, increasing the tobacco tax to bring Utah closer to the national average, and using one-time resources from various state accounts.

In anticipation of the economic downturn, the Legislature built up a healthy Rainy Day Fund and also set aside $103 million in a separate account to meet the needs of Public Education. Budgets adopted during the 2010 legislative session used $209 million of the Rainy Day Fund and the $103 million set aside for Public Education. Wise use of this money leaves $209 million in the State's Rainy Day Fund for future needs.

Budget adjustments for FY 2011 and FY 2010 are located in the following sections: Table 1 in summary form, Tables 6 through 10 by department, and itemized tables by department.

Economic Forecast

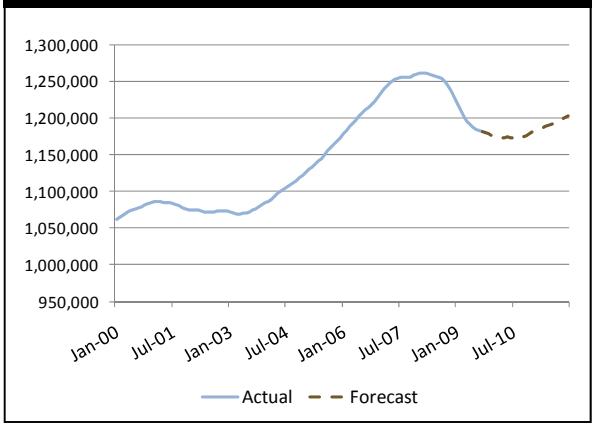
As the economic expansion ended in December 2007, Utah followed the nation into recession.

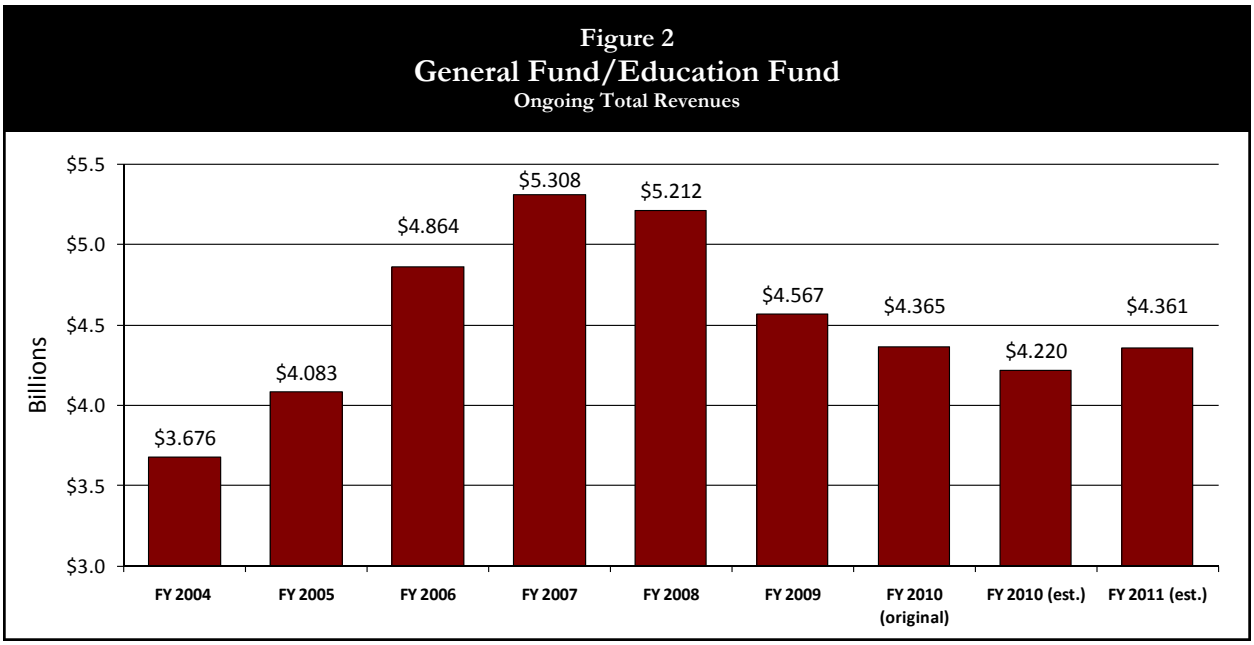
The good news is that most experts believe the recession ended during the summer of 2009, with retail sales and production poised for recovery, followed by income and employment.

Utah is at the forefront of the nation's economic recovery. Indicators show employment in Utah is forecasted to grow in the winter of 2010, with moderate growth expected to continue throughout 2011.

Figure 1 shows the growth in employment during the strong expansion of the 2000s, the subsequent decline during the recession, and the forecasted recovery.

Figure 1
Utah Employment
Number of Non-agricultural Jobs





Utah's dedicated, well-educated, and productive workforce makes Utah an ideal location for business. Though the economy will be fragile throughout 2010, the advantages for doing business in Utah that existed prior to the recession remain and can support recovery during 2010 and 2011. Detailed information about the outlook for Utah's economy is available in the *2010 Economic Report to the Governor.*

The main determinants of state government revenue are employment, wages, and other types of income such as capital gains and business profits. Additionally, Utah has an oil and gas severance tax and receives federal mineral lease payments, which both fluctuate with energy prices.

The State's Revenue Assumptions Committee (RAC) determines the basic assumptions that lead to the Consensus Revenue Forecast, which is used by the Legislature to make appropriations. Members of the committee represent the Governor's Office of Planning and Budget, the Utah Tax Commission, Office of the Legislative Fiscal Analyst, the University of Utah and other various state agencies.

The RAC projections have been adopted and are shown in Figure 2.

Public Education

Public education continues to be a priority. Since 2005, funding for public education has increased 32 percent. The FY 2011 budget includes ongoing funding to replace one-time state and federal funds of $293 million that supported the FY 2010 budget. This is two percent more than the FY 2008 funding level, despite a decrease of more then 20 percent in revenues.

The weighted pupil unit (WPU) was maintained at $2,577. The Legislature allowed public education the latitude to meet current needs and prepare for future enrollment growth with the following legislation:

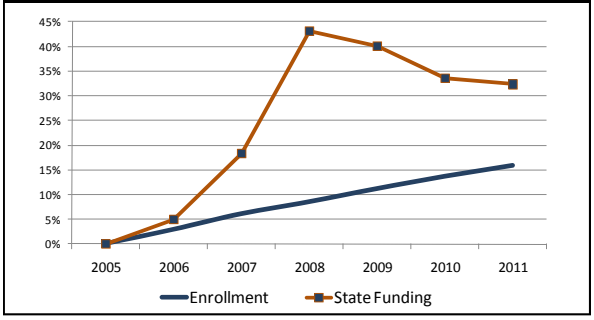
House Bill 1, *Minimum School Program Base Budget* (Newbold), provides the flexibility to transfer funds between line items in specified Minimum School Programs and prohibits capital outlay program transfers.

House Bill 295, *Expanded Uses of School District Property Tax Revenue* (Sumsion), and Senate Bill 175, *School District Capital Outlay Equalization Amendments* (McAdams), allow the use of local capital outlay levy to be used for General Fund purposes, not to include certain administrative costs for FY 2011 and FY 2012.

House Bill 149, *School Finance Amendments* (Bigelow), provides flexible use of funding to five categorical programs.

Figure 3 shows the cumulative enrollment and funding growth since 2005.

Figure 3
Public Education
Cumulative Growth by School Year



Higher Education

Like most economic indicators, funding for higher education peaked in FY 2008, but has since declined. Federal funds increased after the peak, defraying the costs of increased enrollment during the recession. The FY 2011 budget for colleges and universities is $12.2 million less than the appropriated FY 2010 budget. The budget includes $33.4 million in ongoing funds to offset previously enacted budget reductions.

Figure 4 shows the cumulative enrollment and funding growth since 2005.

Energy

Energy-related legislation promoted the development of clean, affordable and sustainable energy sources, and expanded power generation and energy efficiency opportunities. Several bills fostered energy innovation with an intent to increase employment, increase education funding and make the state a leader in new processes and technologies. The definition of renewable energy was expanded to include methane gas, municipal solid waste, and certain compressed air energy storage technologies. Other legislation extended programs and opportunities currently available to state agencies to local governments and other entities.

Senate Bill 242, *Economic Development Incentives for Alternative Energy Projects* (Van Tassell), defines alternative energy as renewable energy derived from solar, wind, geothermal, biomass, hydroelectric sources, petroleum coke, shale oil, nuclear fuel, tar sands, or oil-impregnated diatomaceous earth. The redefinition extends tax credits to new alternative energy projects and existing alternative energy projects in alternative energy development zones in the state.

House Bill 116, *Political Subdivision Facility Energy Efficiency* (Hunsaker), authorizes political subdivisions to enter into energy-saving agreements to make public buildings and facilities more energy efficient.

House Bill 318, *Revolving Loan Fund for Certain Energy Efficient Projects Amendments* (Barrus), makes the revolving loan fund available to political subdivisions.

House Bill 145, *Renewable Energy Financing Provisions* (Last), allows for the development and installation of renewable energy sources by third parties to sell excess power to public utilities and reap benefit for those non-profits and public entities.

House Bill 335, *Utility Related Exemptions* (Hughes), allows industrial users to partner with public utilities to generate energy specifically for the industrial facility.

Economic Development

Legislation passed during the 2010 session enhanced current economic development programs, expanded opportunities for growth, and facilitated the use of tax credits.

House Bill 24, *Economic Development Incentives Act Amendments* (Wallis), helps Utah companies that manufacture products to expand significant capital outlay. Once certain production output benchmarks are met, companies can receive tax credits to help offset the cost of capital.

Senate Bill 198, *Economic Development Incentive Amendments* (Valentine), enables non-Utah companies to pass tax credits through to a local government to meet the costs of infrastructure development.

Infrastructure

The appropriated capital budget for FY 2011 recognizes infrastructure needs and is summarized in Figure 5.

For a complete list of projects, see Tables 37 and 38.

Buildings

Senate Bill 282, *Capital Facilities Appropriations* (Bramble), appropriates $113 million one-time General Fund for the Utah Valley University Science Building, Dixie State College Centennial Commons, Salt Lake Community College Administrative Complex, and for National Guard Armory repairs.

Bonding

The Legislature authorized a $46 million bond in Senate Bill 280, *2010 General Obligation Bond Authorization* (Hillyard), for the USTAR buildings. House Bill 5, *Revenue Bond, Capital Facility Authorizations* (Clark), provides $214.9 million in non-state funds for higher education institutions and $4.8 million in non-state funds for the Division of Services for the Blind and Visually Impaired and the Department of Public Safety (DPS) to construct buildings. For a complete list of non-state funded projects see Table 38.

Compensation

The Legislature took measures to address the rising costs of the health insurance and retirement programs. Funding was approved for half of the employer's portion of the increase in health care premiums. The other half of the rate increase in health insurance premiums will be funded through benefit plan changes.

The Legislature passed two bills addressing retirement benefits for current and future state employees. The changes will help with the structural balance of the retirement fund and provide more flexibility for the changing needs of employees.

Senate Bill 43, *Post-Retirement Employment* (Liljenquist), amends provisions related to a retiree who returns to work for a participating employer, and places restrictions on the maximum retirement allowance certain employees can accrue. In addition, beginning July 1, 2010, a retiree may not return to work with any Utah Retirement System (URS) covered entity within one year of retirement.

The separation requirement also prohibits part-time and contract work during the separation period.

Senate Bill 63, *New Public Employees' Tier II Contributory Retirement Act* (Liljenquist), allows any employee entering regular full-time employment before July 1, 2011, to participate in the existing retirement systems and plans under Tier I. Employees beginning regular full-time employment after June 30, 2011, may participate only in Tier II systems or plans. The Tier II plan allows employees to elect between a defined contribution plan or a defined benefit plan. Under both scenarios, the state will contribute 10 percent of the employee's salary toward his or her retirement. The Tier II plan also increases the amount of time an employee must serve to be eligible for retirement.

Budget Reserve Fund and Education Budget Reserve Fund

For additional budget stabilization, the State maintains the Budget Reserve Fund (Rainy Day Fund) and Education Budget Reserve Fund (Education Rainy Day Fund) with a combined total balance of $209 million. These funds can only be used for operating deficits, retroactive tax refunds, and settlement agreements approved by the Legislature.

Appropriations Limit

UCA 63J-3-201 through 205 limits how much the State can spend from unrestricted General Fund sources and non-Uniform School Fund income tax revenues. The limit allows spending to increase relative to population and inflation increases. The FY 2010 and FY 2011 budgets are within the appropriations limit.

(a) Estimated FY 2010 is based on formula allocations and appropriations outlined in statute and consensus February revenue estimates for FY 2010. Actual distributions to agencies are based solely on allocations and appropriations outlined in statute and actual collections.

(b) Estimated FY 2011 is based on formula allocations and appropriations outlined in statute and consensus February revenue estimates for FY 2011. Actual distributions to agencies are based solely on allocations and appropriations outlined in statute and actual collections.

(c) Appropriations are mandated by law for these programs based upon predetermined percentages.

(d) Senate Bill 24, Land Exchange Distribution Account Amendments (Stowell) that passed in the 2010 General Session appropriates 1% of all deposits made to exchanged lands to the Geological Survey for the maintaince of wells and air monitoring and takes 6.5% to the Permanent Community Impact Fund.

(e) House Bill 134, School and Institutional Trust Lands Amendments (Mathis) *that passed in the 2007 General Session repealed the Rural Development Fund and the Rural Electronic Commerce Fund and directed the Division of Finance to transfer the balance of these funds to the Permanent Community Impact Fund beginning July 1, 2008. It also required an appropriation to the Constitutional Defense Restricted Account, rather than statutory allocations, and revised the previous formula to include a direct distribution to counties.*

(f) Statutory allocations are mandated by law for these funds based upon predetermined percentages and are not included in the appropriations acts.

Table 12 shows the actual, authorized, and estimated allocation of Mineral Lease revenue. This revenue comes from mineral leases on federal lands in Utah. Statutory allocations are set by formula. Discretionary allocations are made from revenues in excess of those allocated by formula.

15 DHRM funds, for information technology and consulting services $262,200, and employee training and development programs $243,900, are nonlapsing.

FY 2011, Item

72 DFCM and Department of Public Safety will cooperate with Salt Lake City for the programming, design, and costing of a joint emergency operations center, and report the results, recommendations and analysis regarding the cost effectiveness and potential operational efficiencies to the Office of the Legislative Fiscal Analyst, Governor's Office of Planning and Budget, and an appropriate committee by June 30, 2010.

Internal Service Funds (ISF)

Department of Administrative Services (DAS) and Human Resource Management (DHRM) include several ISF that provide products and services to state and other governmental agencies on a cost-reimbursement basis. They are set up to account for the cost of certain governmental services, thereby avoiding duplication of effort among agencies and creating statewide savings. State agency budgets include funding for ISF services.

ISF must receive legislative approval for rates charged to agencies, capital acquisitions, and FTE. The table below shows the amount each ISF is expected to collect from user agencies, the maximum dollar amount of capital assets that may be acquired, and the authorized number of FTE.

The FY 2011 revenue estimates include ongoing rate increases for the following: Purchasing and General Services $367,700, Fleet Operations motor pool $24,700, Risk Management premium $560,000, and Facilities Management $321,300.

The FY 2011 revenue estimates include ongoing rate decreases for the following: Risk Management liability $267,900, and Human Resource Management $611,600.

The FY 2010 FTE and FY 2011 FTE for Purchasing and General Services includes the addition of 10 FTE to replace 10 Schedule AL employees currently working at State Mail.

The FY 2011 capital acquisition for Risk Management includes $300,000 for claims processing software.

LEGISLATIVE INTENT STATEMENTS

Legislative Intent Statements

House Bill 2

FY 2011, Item

157 If the Department of Workforce Service (DWS) continues to pursue proxies for Temporary Assistance for Needy Families (TANF) maintenance of effort (MOE) requirements, DWS may identify one-time General Fund budget adjustments equivalent to replacement MOE amounts. DWS may develop a plan for implementing such adjustments in case replacement MOE declines or is disallowed by the Federal Government.

If DWS continues to pursue proxies for TANF MOE requirements, DWS may use all replacement MOE first, prior to expending free or restricted revenue.

DWS shall report to the Office of the Legislative Fiscal Analyst (LFA) any transfers between the Department's Schedule of Programs.

DWS shall report to the LFA the feasibility of allowing non-state entities working with low-income individuals to submit the required information for Medicaid and other public programs eligibility via online methods by December 31, 2010.

DWS is not authorized to expend more than the amount appropriated from the *American Recovery and Reinvestment Act of 2009* (ARRA). DWS will receive a General Fund budget reduction equal to the amount expended beyond the ARRA appropriation.

171 Insurance may purchase one fleet vehicle for the Insurance Fraud Division.

174 Public Service Commission (PSC) is not authorized to expend more than the amount appropriated from ARRA. PSC will receive a General Fund budget reduction equal to the amount expended beyond the ARRA appropriation.

204 Division of Family Health and Preparedness (DFHP) is not authorized to expend more than the amount appropriated from ARRA. DFHP will receive a General Fund budget reduction equal to the amount expended beyond the ARRA appropriation.

206 Department of Health shall report to the Office of the Legislative Fiscal Analyst (LFA), by October 1, 2010, on reimbursement options for pharmaceutical drugs that would give the State more control over inflationary increases and/or move away from reimbursement based on average wholesale price.

207 Department of Health shall report to the LFA, by July 1, 2010, replacement options for the Medicaid Management Information System, including which parts of claims processing are performed by State versus contracted workers.

Department of Health shall report quarterly to the LFA on the status of Medicaid Management Information System replacement including responses to requests for proposals.

LEGISLATIVE INTENT STATEMENTS

208 Medicaid Mandatory Services (MMS) is not authorized to expend more than the amount appropriated from ARRA. MMS will receive a General Fund budget reduction equal to the amount expended beyond the ARRA appropriation.

Public Employees Health Plan shall report to the Office of the Legislative Fiscal Analyst, by December 31, 2010, ideas that could be adopted by Medicaid.

209 Medicaid Optional Services (MOS) is not authorized to expend more than the amount appropriated from the ARRA. MOS will receive a General Fund budget reduction equal to the amount expended beyond the ARRA appropriation.

LEGISLATIVE INTENT STATEMENTS AND INTERNAL SERVICE FUND

Legislative Intent Statements

House Bill 2

FY 2010, Item

73 Department of Human Services (DHS) shall eliminate general services internal service fund and transfer associated assets to the Executive Director Operations (EDO) in accordance with applicable federal regulations. DHS may pay for funds owed to the federal government from the cash transferred to the department.

EDO is not authorized to expend more than the amount appropriated from the *American Recovery and Reinvestment Act of 2009* (ARRA). EDO will receive a General Fund budget reduction equal to the amount expended beyond the ARRA appropriation.

74 Division of Substance Abuse and Mental Health (DSAMH) funds, for Drug Courts and the Drug Board, of $500,000 are nonlapsing.

DSAMH funds, for State Substance Abuse Services and Local Substance Abuse Services, of $500,000 are nonlapsing.

DSAMH funds, for computer equipment and software, of $50,000 are nonlapsing.

The use of any nonlapsing funds is limited to 'Other Charges/Pass Through' expenditures.

76 DCFS funds, are limited to 'Other Charges/ Pass Through' expenditures for Adoption Assistance and Out-Of-Home Care, of $5,500,000 are nonlapsing.

FY 2011, Item

212 EDO is to review all oversight and audit functions for the purpose of streamlining and consolidating operations. EDO is to maximize the effectiveness of the audit process without disrupting service provision.

213 DSAMH is not authorized to expend more than the amount appropriated from ARRA. DSAMH will receive a General Fund budget reduction equal to the amount expended beyond the ARRA appropriation.

214 DSPD is not authorized to expend more than the amount appropriated from ARRA. DSPD will receive a General Fund budget reduction equal to the amount expended beyond the ARRA appropriation.

The use of any nonlapsing funds is limited to offer emergency services, services for individuals who turn 18 years old and leave state custody from DCFS and DJJS, and services for individuals that are court ordered into DSPD.

215 ORS is not authorized to expend more than the amount appropriated from ARRA. ORS will receive a General Fund budget reduction equal to the amount expended beyond the ARRA appropriation.

216 DCFS is not authorized to expend more than the amount appropriated from ARRA. DCFS will receive a General Fund budget reduction equal to the amount expended beyond the ARRA appropriation.

217 DAAS is not authorized to expend more than the amount appropriated from ARRA. DAAS will receive a General Fund budget reduction equal to the amount expended beyond the ARRA appropriation.

House Bill 3

FY 2011, Item

140 DCFS shall maintain a Live Scan Testing Fee of $10.

Internal Service Fund

DHS includes one internal service fund (ISF) agency that provides products and services to various offices and divisions within the department on a cost-reimbursement basis. This ISF accounts for the cost of certain governmental services and duplication of effort among the various agencies within the department. Individual divisions and office budgets include funding for ISF services.

The following table shows the amount each DHS ISF is expected to collect from users, the maximum dollar amount of capital assets that may be acquired by the ISF agency, and the authorized number of full-time equivalents (FTE) in each ISF.

AGENCY BUDGET OVERVIEW

AGENCIES INCLUDE:

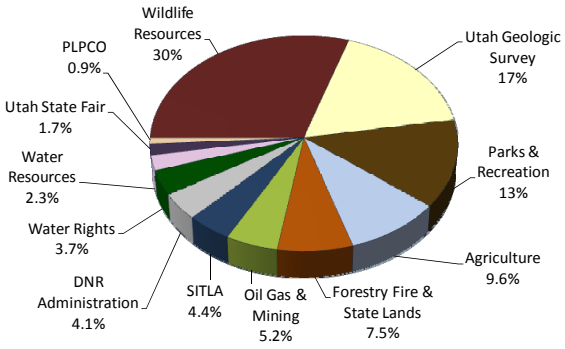
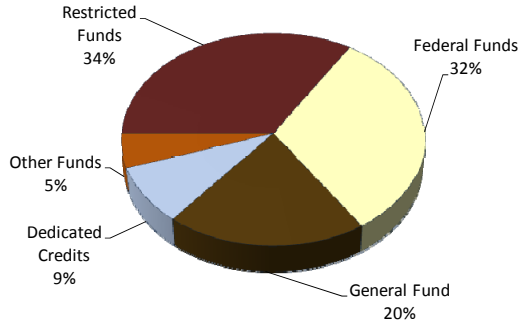
- Department of Natural Resources (DNR)
- Department of Agriculture and Food
- School and Institutional Trust Lands Administration (SITLA)
- Utah State Fair Corporation
- Public Lands Policy Coordinating Office (PLPCO)

Mission: *Conserve, protect, and develop Utah's natural resources and agriculture, and effectively manage school and institutional trust lands*

Where Will My Taxes and Fees Go for Natural Resources?
(Total FY 2011 Operational Funding is $236,200,100)



Financing of Natural Resources Agencies
(Based on FY 2011 Operational Appropriations)



MAJOR ACCOMPLISHMENTS AND SERVICES
(Headings include FY 2011 operating totals. Accomplishments occurred in FY 2009 unless otherwise specified.)

Wildlife Resources - $70.9 million
- Restored 122,458 acres of habitat by leveraging the State appropriation 600 percent through partnerships

Utah Geological Survey (UGS) - $41 million
- Produced 116 geologic publications and responded to 9,182 geologic inquiries

Parks and Recreation (DPR) - $31.2 million
- Saved $1.85 million using 94,833 volunteer hours

Forestry, Fire, and State Lands (FFSL) - $17.7 million
- Responded to 648 fires that burned 44,347 acres and reseeded more than 1,700 scorched acres
- Completed 14 new forest stewardship plans covering a total of 56,816 acres

Oil, Gas, and Mining (OGM) - $12.3 million
- Processed 1,434 applications, inspected 8,775 active oil and gas wells and sealed 186 mine openings

Water Rights - $8.8 million
- Inspected 278 dams rated as potentially hazardous

Water Resources - $5.5 million
- Reduced water usage to 246 gallons per capita (GPC) per day, exceeding the target of 282 GPC per day

Agriculture and Food - $22.6 million
- Initiated the "Meat the Need" program to relieve pressures on the protein sector of agriculture

Trust Lands Administration - $10.4 million
- Received record coal revenue of $16.8 million

Utah State Fair Corporation - $4.0 million
- Increased net return on investment to $11.70 per state dollar invested

PLPCO - $2.2 million
- Negotiated six Bureau of Land Management resource management plans
- Coordinates State's interest on public lands issues

Budget Adjustments by Agency

(See itemized table for full list of appropriations)

Department of Natural Resources

- Improve critical maintenance at State Parks with $650,000 ongoing restricted capital funds
- Enhance public access to waterways with $100,000 one-time General Fund and $300,000 ongoing restricted funds
- Enhance wildlife habitat development with $500,000 ongoing restricted funds
- Support sovereign land leasing by hiring a paralegal with $61,500 ongoing restricted funds
- Support law enforcement and sanitation at Bear Lake with $50,000 ongoing restricted funds
- Offset Antelope Island park operations with $200,000 one-time restricted funds obtained from hunting
- Secure ARRA funding for Fire Management $1,200,000, Wildlife Cooperative $2,750,000, and State Energy $32,050,000 programs
- Consolidate regional administration of state parks to save ($370,000) ongoing General Fund
- Reduce ongoing General Fund expenditures for Endangered Species ($50,000), Quagga Mussel ($50,000), Groundwater Report ($26,500), and Stream gauges ($51,300) programs
- Reduce ongoing General Fund capital expenditures for Fish Hatchery program of ($150,600)

Department of Agriculture and Food

- Enhance Predatory Animal Control with $31,200 ongoing restricted funds

School and Institutional Trust Lands Administration

- Support federal land exchange with $300,000 one-time restricted fund
- Commence business system re-write with $580,000 one-time restricted fund
- Secure water rights for development projects with $3,400,000 one-time and $1,600,000 supplemental restricted funds for capital
- Provide seed monies for Energy Education Program with $50,000 one-time restricted fund

FY 2011, Item

274 Bear Lake Regional Commission funds shall be expended only as a one-to-one match with funds from the State of Idaho.

DNR shall transfer any remaining capital assets in its motor pool internal service fund to DNR.

275 DNR shall report to the Natural Resources, Agriculture, and Environment Interim Committee and the Natural Resources Appropriations Subcommittee on or before its November, 2010 meeting, providing detailed information on how funds are expended for the Colorado River, June Sucker, and Virgin River plans, including detailed information on contracts issued, deliverables required, and deliverables accomplished.

278 UGS is not authorized to expend more than the amount appropriated from ARRA. UGS will receive a General Fund budget reduction equal to the amount expended in excess of the ARRA appropriation.

280 Wildlife Resources funds may be used for big game depredation $500,000; half each from General Fund Restricted - Wildlife Resources and General Fund.

Wildlife Resources may spend $140,000 for livestock damage, $90,000 from General Fund and $50,000 from General Fund Restricted - Wildlife Resources.

287 UGS is not authorized to expend more than the amount appropriated from ARRA. UGS will receive a General Fund budget reduction equal to the amount expended in excess of the ARRA appropriation.

289 DNR shall study water rights issues and report to the Natural Resources, Agriculture, and Environment Interim Committee by its October 2010 meeting.

House Bill 3

FY 2011, Item

163 Wildlife Resources may spend $300,000 to identify areas of conflict between landowners and fishermen on Utah streams and rivers, and to purchase easements through the Walk-in Access Program.

165 DPR shall use $200,000 from the proceeds of the hunts for bison, deer and Bighorn sheep on Antelope Island for Antelope Island State Park. Both conservation and regular hunts will be coordinated through a cooperative agreement between DPR and Wildlife Resources.

172A Agriculture may appropriate $2,000,000 from the Rural Rehabilitation Fund to securitize, at a discounted rate, funding for emergency relief loans to the dairy sector, as determined by the Agricultural Advisory Board to be under severe distress. These emergency relief loans shall be secured with United States Department of Agriculture loan protection guarantees, be approved and administered by the Agricultural Advisory Board, and be secured with sufficient funds or other collateral to assure revenue bond payment.

Internal Service Fund

DNR includes one ISF that provides products and services to the department and other state agencies on a cost-reimbursement basis. It is set up to account for the cost of certain governmental services and to avoid duplication of effort among agencies, thus providing savings statewide.

The following table shows the amount that is expected to be collected from users, the maximum dollar amount of capital assets that may be acquired, and the authorized number of full-time equivalents (FTE).

Senate Bill 2

FY 2011, Item

11 State Board of Education shall allocate $23,484 from the appropriation to the Career and Technical Education District Add-on Program to support summer Career and Technical Education agriculture programs.

12 Funds for the Flexible Allocation - WPU Distribution program are to be distributed to school districts and charter schools on the basis of the number of weighted pupil units in a school district or charter school compared to the total number of weighted pupil units. The State Board of Education shall provide reporting.

State Board of Education shall allocate $51,700 from the appropriation for To and From School - Pupil Transportation program to the Utah Schools for the Deaf and the Blind.

Enrollment in charter schools in the 2011-12 school year may increase by 6,000 students over the projected enrollment of 42,211 students in the 2010-11 school year.

House Bill 1

FY 2010, Item

1 State Board of Education shall allocate $1,150,600 from the Career and Technical Education District Add-on program to support summer Career and Technical Education agriculture programs.

2 State Board of Education shall allocate $2,532,700 from To and From School - Pupil Transportation Program to the Utah Schools for the Deaf and the Blind for transportation costs.

103 Carson Smith Special Needs Scholarship funds are nonlapsing.

Internal Service Fund

Utah State Office of Education (USOE) includes one internal service fund (ISF) agency that provides products and services to all divisions within public education on a cost-reimbursement basis. They are set up to account for the cost of certain governmental services and to avoid duplication of effort among divisions, thus providing savings department wide. State agency budgets include funding for ISF services.

ISF agencies must receive legislative approval for rates charged to agencies, capital acquisitions, and full-time equivalents (FTE).

The Indirect Cost Pool ISF funds programs and individuals who administer the USOE. The Indirect Cost Pool supports accounting, purchasing, and government/public liaison functions.

The Legislature established the FY 2011 rates for the Indirect Cost Pool as follows:

- 10.8 percent of personal costs supported by restricted funds.
- 13.5 percent of personal costs supported by unrestricted funds.

AGENCY BUDGET OVERVIEW

TECHNOLOGY SERVICES

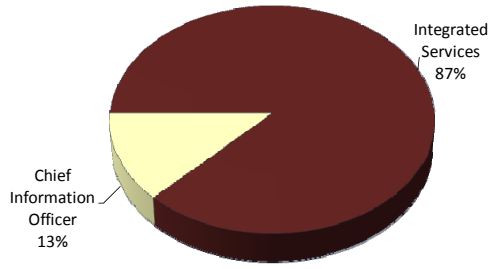
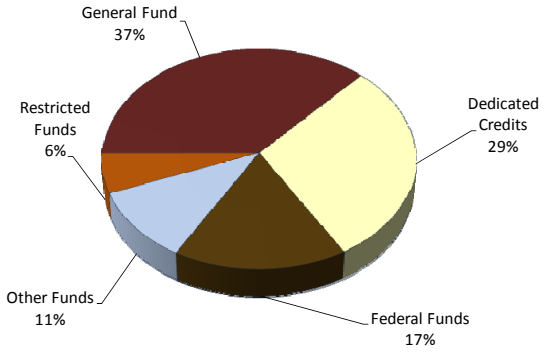
Mission: *Bring value and innovation to Utah through service and technology*

Where Will My Taxes and Fees Go for Technology Services?
(Total FY 2011 Operational Funding is $5,102,400)



Financing of Technology Services
(Based on FY 2011 Operational Appropriations)



MAJOR ACCOMPLISHMENTS AND SERVICES

(Headings include FY 2011 operating totals. Accomplishments occurred in FY 2009 unless otherwise specified.)

Integrated Technology Services - $4.5 million

- Enhanced State Geographic Information Database containing more than 400 geospatial data layers, including improved street and address data, added milepost data, and new parcel data
- Completed a map-based web application for the Watershed Restoration Initiative

Chief Information Officer - $0.6 million

- Awarded *Best of the Web* in 2009 for *Utah.gov* by the National Center for Digital Government

Enterprise Technology and Agency Services - Internal Service fund

- Commenced the Data Center consolidation to save $4 million ongoing funds
- Created the new web-based *BudgetPrep* application
- Developed the Utah Public Finance website providing expenditure and revenue data
- Enhanced security of IT assets through information security training programs, a security assessment of all state agencies and implementation of enterprise class whole disk encryption for laptops
- Increased the number of State online services to 860 in 2009 from 200 in 2004

Budget Adjustments by Agency

(See itemized table for full list of appropriations)

Support communication

- Restore funding for Statewide Interoperable Communications with $97,500 ongoing General Fund

TRANSPORTATION

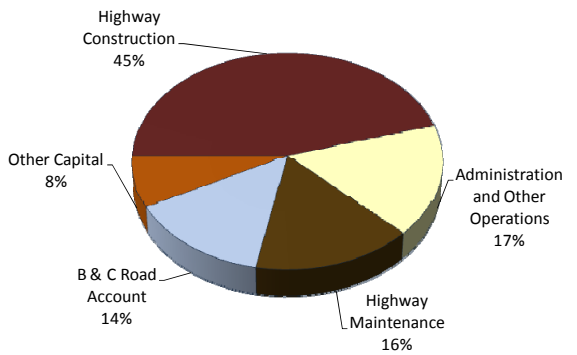
Kimberlee Willette, Analyst

AGENCY BUDGET OVERVIEW

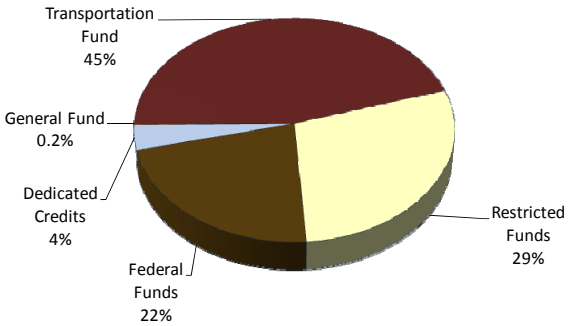
TRANSPORTATION

Mission: *Build and maintain the State's transportation system, plan and implement new highway projects, improve pavement conditions on existing roads, and assure highway safety through appropriate design and maintenance*

Where Will My Taxes and Fees Go for Transportation?
(Total FY 2011 Funding is $856,855,200*)



Financing of Transportation
(Based on FY 2011 Appropriations*)



**Note: Includes funding for capital projects*

MAJOR ACCOMPLISHMENTS AND SERVICES

(Headings include FY 2011 operating totals. Accomplishments occurred in FY 2009 unless otherwise specified.)

Maintain the current road system

- Administered 6,000 miles of state highways servicing 70 percent of all vehicle miles traveled in Utah
- Preserved highways by applying treatments and other technologies
- Preserved bridges through routine inspections, sealing treatments, and deck pavement projects

Improve the highway system

- Maximized traffic efficiency through intelligent transportation systems including the Traffic Operations Center, cameras along roadways, congestion detectors in highways, weather sensors, and ramp meters at freeway interchanges
- Provided traveler information through the 511 system, a free travel information phone number that offers statewide updates on traffic, winter road conditions, and public transit
- Operated incident management teams that patrol Utah's roadways
- Removed snow and ice by deploying 130 snowplows along the Wasatch Front

Increase highway safety

- Improved roadway safety through public awareness campaigns, improved design, high-visibility signs, rumble strips, new paint striping technologies, intersection improvements, and maintenance safety activities

Budget Adjustments by Agency

(See itemized table for full list of appropriations)

- Reduce advertising expenditures pursuant to Senate Bill 89, *Legal Notice Amendments* (Dougall), by ($68,000) ongoing Transportation Fund

General, Transportation and Other Funds in Transportation

FY 2010, Item

107 Support Services funds, for computer software development projects, of $400,000 are nonlapsing.

108 Engineering Services funds, for special projects/studies, of $200,000 are nonlapsing.

109 Operations/Maintenance funds, for Avalanche Control Equipment $150,000, highway maintenance $1,300,000, environmental cleanup $200,000, and land $500,000, are nonlapsing.

111 Equipment Management funds of $200,000 are nonlapsing

FY 2011, Item

308 All collections or cash income from the sale or salvage of land and buildings lapse to the Transportation Fund.

Any surplus in the Transportation Fund not otherwise appropriated may be used by the department for the construction, rehabilitation, and preservation of state highways in Utah. The appropriation shall fund: first, participation with the federal government for the construction of federally designated highways as provided by law; and last, the construction of state highways.

The number of full-time equivalents for field crews may be adjusted to accommodate the increase or decrease in the construction program. No portion of the money appropriated by this item shall be used either to enhance or increase appropriations made to the department for other purposes.

309 Any surplus in the Transportation Fund not otherwise appropriated may be used by the department for the construction, rehabilitation, and preservation of state highways in Utah. The appropriation shall fund: first, participation with the federal government for the construction of federally designated highways as provided by law; and last, the construction of state highways as funding permits.

312 Funds appropriated from the Transportation Fund for pedestrian safety projects shall be used to correct pedestrian hazards on state highways. Local authorities are encouraged to participate in the construction of pedestrian safety devices.

Local participation in the Sidewalk Construction Program shall be 75 percent state and 25 percent local match. If local governments cannot use their allocation of Sidewalk Safety Funds in two years, those funds will be available for other governmental entities which are prepared to use the resources.

Sidewalk construction funds are nonlapsing.

313 Federal Mineral Lease Account funds, for improvement or reconstruction of highways heavily impacted by energy development, are nonlapsing.

Notes to Row Numbers

(3) Savings from the I-15 project transferred to General Fund.

(4) Sales tax generated by the 1/64 cent tax rate that previously went to the Sports Authority Special Revenue Fund - estimated growth rate is 6.0 percent per year.

(5) Sales tax dedicated to the Centennial Highway Fund Restricted Account through passage of House Bill 1008, Transportation Investment Act *(Lockhart), in the 2005 First Special Session.*

(6) Sales tax dedicated to the Centennial Highway Fund Restricted Account through passage of House Bill 112, Transportation Investment Act *(Lockhart), in the 2006 General Session. The July 1, 2006 implementation of this bill caused a one-time accrual adjustment of $23,426,200 in FY 2007.*

(7) Portion of a quarter of the 1/4 cent transit tax increase passed by Salt Lake County voters in the 2000 General Election.

(8) Transportation revenues from fuel tax increase passed in the 1997 General Session - estimated growth rate is 3.0 percent per year. The Legislature passed House Bill 3001, Technical Reallocation of Transportation Funding *(Bigelow), in the 2006 3rd Special Session. For FY 2007, this bill reallocated $70 million Transportation Fund and $30 million federal funds to Construction Management and replaced this reallocation with $100 million General Fund.*

(10) Transportation revenues from auto and truck registration fee increase passed in the 1997 General Session.

(17) Total Annual Funding includes the beginning balances. The Total column on the far right only includes new money to the fund and thus does not include beginning balances.

Notes: Minor differences in table are due to rounding.

Previous versions of the Budget Recommendations book reported bonds in the year they were authorized. The above historical funding plan reports bonds in the year they were expended. This results in minor differences between versions of the Centennial Highway Fund schedule.

CAPITAL BUDGET AND DEBT SERVICE

Kimberlee Willette, Analyst

BUDGET ADJUSTMENTS

OVERVIEW:

- The capital budget includes appropriations for the acquisition, development, construction, and improvement of fixed public assets.
- The debt service budget includes appropriations for debt services payments on all capital facility general obligation bonds, highway general obligation bonds, and State Building Ownership Authority (SBOA) revenue bonds.

Debt Services

- Increase funding for new general obligation (G.O.) bonds authorized as stated in Senate Bill 280, *2010 General Obligation Bond Authorization* (Hillyard), of $46,000,000 for USTAR buildings

Capital Improvement

- Reduce maintenance of state facilities by ($4,977,100) ongoing General Fund

LEGISLATIVE INTENT STATEMENTS

House Bill 2

FY 2011, Item

154 Finance may transfer $22,800,000 from the Transportation Investment Fund and $13,700,000 from the Critical Highway Needs Fund to Debt Services for General Obligation bonds issued for highways after March 1, 2010.

House Bill 3

FY 2011, Item

78 State Building Board shall reallocate $3,550,000 from prior year capital improvements funds to the University of Utah (U of U) and add the FY 2011 U of U capital improvement allocation for high temperature water distribution system upgrades.

House Bill 5
Revenue Bond and Capital Facilities Authorizations (Clark)

Section 1

State Board of Regents (SBR), on behalf of Weber State University (WSU), may issue, sell, and deliver revenue bonds or other evidences of indebtedness of WSU to finance the cost of constructing student housing, in the amount of $15,000,000, together with other amounts necessary to pay costs of issuance, pay capitalized interest, and fund any debt service reserve requirements. Student housing rental fees and parking fees shall be used as the primary revenue source for repayment of the obligation. WSU may demolish, replace, and construct these projects, but may not request state funds for operation and maintenance costs or capital improvements.

SBR, on behalf of U of U, may issue, sell, and deliver revenue bonds or other evidences of indebtedness to finance the:

- Purchase of the Ambassador Building from Salt Lake County with $12,000,000, to be repaid with clinical revenues and institutional funds;
- Purchase of the Orthopaedics Building from Utah Orthopaedic Foundation with $25,000,000, to be repaid with clinical revenue and institutional funds;
- Expansion of the University Guest House with $10,000,000, to be repaid with room rentals, meeting room rentals, and the sale of ancillary services; and
- Construction of an ambulatory care complex with $119,541,000, to be repaid with clinical revenues and institutional funds.

These costs are authorized, together with additional amounts necessary to pay costs of issuance, pay capitalized interest, and fund any debt services reserve requirements. U of U may not request state funds for operation and maintenance costs or capital improvements.

SBR, on behalf of Southern Utah University (SUU), may issue, sell, and deliver revenue bonds or other evidences of indebtedness of SUU to finance the cost of constructing the Southern Utah Museum of Arts, in the amount of $2,500,000, together with other amounts necessary to pay costs of issuance, pay capitalized interest, and fund any debt service reserve requirements. Student fees shall be used as the primary revenue source for repayment of the obligation. SUU may not request state funds for operation and maintenance costs or capital improvements.

Section 2

SUU may use $10,000,000 of donations and revenue bond authority to plan, design, and construct the Southern Utah Museum of Arts. No state funds may be used for any portion of this project. SUU may not request state funds for operation and maintenance costs or capital improvements.

U of U may use $17,878,000 of donations, federal funds, and institutional funds to plan, design, and construct an addition to the Henry Eyring Building. No state funds may be used for any portion of this project. U of U may not request state funds for operation and maintenance costs or capital improvements.

Utah State University (USU) may use $10,000,000 of donations and revenue bond authority to plan, design, and construct a Botanical Center classroom building. No state funds may be used for any portion of this project. USU may not request state funds for operation and maintenance costs or capital improvements.

SUU may use $3,000,000 of donations to plan, design, and construct the Southern Utah Museum of Arts. No state funds may be used for any portion of this project. SUU may not request state funds for operation and maintenance costs or capital improvements.

Division of Services for the Blind and Visually Impaired (DSBVI) may use $1,497,000 federal funds to plan, design, and construct a residential facility for the blind. No state funds may be used for any portion of this project. DSBVI may not request state funds for operation and maintenance costs or capital improvements.

Department of Public Safety (DPS) may use $3,294,000 of nonlapsing balances within the driver license line item to plan, design, and construct an Ogden driver license building. DPS may not request state funds for operation and maintenance costs or capital improvements.

U of U may use donations to prepare preliminary plans for a dental school building. No state funds may be used for any portion of the planning. U of U may not design or construct a dental school building until the Legislature authorizes the design and construction of a dental school building, the university pursues the establishment of a dental school program, and the appropriation of funds at a level sufficient to fund a dental school program at the U of U.

Section 3

Division of Facilities and Construction Management with title to property identified as Emery County Tax Parcel is authorized to sell a 60 feet wide perpetual easement to Rocky Mountain Power on property at Green River, which was subject to cleanup of radiation contamination by the United States Department of Energy and was acquired by the State of Utah.

Section 4

Courts may enter into a lease-purchase agreement for the Spanish Fork Courthouse using existing funds.

State of Utah

Revolving Loan Funds

This section explains revolving loan funds and includes a table of appropriations given to each revolving loan fund.

Cliff Strachan, Analyst

REVOLVING LOAN FUNDS

The State of Utah administers various revolving loan programs to promote economic development within the state. These revolving loan funds are typically funded with General Fund appropriations, and are sometimes supplemented from other funding sources, including federal funds and private contributions. Revolving loan funds may be enhanced through one-time transfers from the General Fund or other funding. Once a loan program is established, loan repayments generally remain within the loan programs in order to provide additional monies for future loans. Thus, a revolving and self-sustaining source of funding is provided.

Several revolving loan programs equip city and county governments with low-interest loans to finance water and sewer systems or other vital infrastructure necessary for economic growth. Other revolving loan programs include low-interest loans for agricultural development, low-income housing development, or other authorized purposes. Some revolving loan programs may provide grants.

The Industrial Assistance Fund (IAF) provides low-interest loans to businesses that provide new jobs in rural Utah. If a business receiving an IAF loan creates a certain number of new jobs, it is not required to repay all or part of the loan.

Budgets and other financial information relating to revolving loan programs are not included in departmental budget tables because fund balances within revolving loan programs are not a source of operating or capital funding for State departments. However, some revolving loan programs have the option of using a portion of the interest from loan repayments to administer the program.

Table 42, Revolving Loan Funds, shows all appropriations to revolving loan funds, including new state funds, loan repayments (shown as either dedicated credits or restricted and trust funds), federal funds, and carry forward balances.

REVOLVING LOAN FUNDS
Funds Available to Loan by Funding Source
Three-Year Comparison

(a) *These restricted funds come from the 1/16th of 1.0 percent state sales tax designated by law to go to these loan funds. House Bill 6004,* Sales and Use Tax Amendments (Curtis)*, which passed in the 2002 Sixth Special Session, limited the distribution of the 1/16th of 1.0 percent state sales tax to the lower of the actual amount collected or $17,500,000. Not reflected in the above table is $2,450,000 that is transferred to the Department of Natural Resources for endangered species and $175,000 transferred to the Division of Water Rights. These amounts are shown in the Natural Resources operating table.*

House Bill 47, Sales Tax Diversion for Water Projects and Water Financing *(Ure), which passed in the 2006 General Session, removed the $17,500,000 cap associated with the 1/16th of 1.0 percent sales tax. The distribution of funds below $17,500,000 remains the same. Revenue above the $17,500,000 will be distributed as follows: $500,000 to the Department of Natural Resources for watershed rehabilitation and restoration; $150,000 to the Division of Water Resources for the cloud seeding program; 6.0 percent of the remaining funds to Water Rights for operating expenses; and 94 percent of the remaining funds to the Department of Water Resources Conservation and Development Fund for preconstruction costs of large state water development projects.*

(b) *The variance is due to* American Recovery and Reinvestment Act (ARRA) of 2009 *funds carried into the next fiscal year.*

(c) *This fund has balances that are not appropriated for use in these years, therefore the opening and closing balances offset each other, giving the appearance of zero funds available.*

Table 42 shows funding available to loan from each appropriated revolving loan fund. The appropriations for revolving loan funds are not included in departmental budget tables since they do not provide operating or capital funds for use by departments. The available funds are loaned or granted to local governmental entities, private businesses, or individuals.

PERSONNEL SERVICES

Overview

Article VII, Section 18, of the *Utah Constitution* requires that compensation for the Governor, Lieutenant Governor, State Auditor, State Treasurer, and Attorney General be set by law.

Section 67-8-5, Utah Code Annotated (UCA) allows the Judicial Compensation Commission to make compensation recommendations for elected officials and judicial branch officials. Compensation for executive branch appointees is determined by the Governor within a range calculated by the Department of Human Resource Management (DHRM), as set forth by law. Judges and board or commission executives also receive compensation set by law.

Section 36-2-2, UCA prescribes the level of compensation paid to members of the Legislature. The salary for members of the Legislature is determined beginning January 1st of each odd-numbed year and based on the amount recommended by the Legislative Compensation Commission (LCC) in the preceding even-numbed year. The Legislature may accept, reject, or lower the LCC salary recommendation, but may not increase the salary recommendation. By law, the LCC's recommendations are enacted unless the Legislature takes other action.

Public education, higher education, and state employees compensation are determined by legislative intent and are limited by appropriation.

A bill passed during the 2010 General Session significantly alters retirement benefits for elected officials, appointees, and state employees.

Senate Bill 63, *New Public Employee's Tier II Contributory Retirement Act* (Liljenquist), changes retirement benefits by creating two tiers for retirement systems and plans.

Elected and appointed office holders and state employees who enter state service before July 1, 2011 remain on existing systems and plans, now known as Tier I retirement systems and plans.

All elected and appointed office holders and state employees who enter state service on or after July 1, 2011 may participate only in Tier II systems and plans. Tier II consists of four new systems or plans, which include the following:

- Public Employees' Tier II Hybrid Retirement System
- Public Employees' Tier II Defined Contribution Plan
- Public Safety and Firefighter Tier II Hybrid Retirement System
- Public Safety and Firefighter Tier II Defined Contribution Plan

Specifics regarding the application of this legislation will be described hereinafter by section.

Executive and Appointed Officials

Section 67-22-1, UCA fixes the salaries for constitutional offices. After considering the recommendation of the Executive and Judicial Compensation Commission, the Legislature did not alter salary ranges.

Section 67-22-2, UCA prescribes the salary range minimum for appointed executives is the lowest minimum salary of all the salary ranges for the appointed executives' deputies. The salary range maximum is 105 percent of the highest maximum salary of all the salary ranges for the appointed executives' deputies. Each year, DHRM recommends a compensation plan for the appointed executives and the board or commission executives to the Governor, based on market salary studies. The Governor determines the salary for each appointed executive, within the salary range. However, the Governor is permitted to establish a salary for the Executive Director of the Department of Health that distinguishes between a physician and non-physician executive director. The salary range maximum for board or commission executives is set at 90 percent of the salary for district judges.

Senate Bill 63 affects governors, other elected, and appointed officials as follows:

Tier I retirement benefits for governors are set by the *Governor's and Legislators' Retirement Act*, which base benefit has been indexed upward to $1,220 (as of July 1, 2009) per month for each term of service. An additional $3.50 per month, for each year of service, is payable to members of this plan before March 1, 2000.

Tier II retirement benefits for governors include only the defined contribution option - a 10 percent contribution to the governor's defined contribution plan.

Retirement benefits for Lieutenant Governor, Attorney General, State Auditor, State Treasurer, and appointed officials for both Tiers I and II are the same as for state employees.

The bill also establishes compensation for constitutional offices effective July 1, 2010. The salaries for elected officials (except legislators) and appointed, board, and commission executives are as follows:

ELECTED OFFICIALS' SALARIES

	Current Salary	FY 2011	Percent Adjustment
Governor	$109,900	$109,900	0.0%
Lieutenant Governor	104,400	104,400	0.0
Attorney General	104,400	104,400	0.0
State Auditor	104,400	104,400	0.0
State Treasurer	104,400	104,400	0.0

APPOINTED OFFICIALS' SALARIES

	FY 2011 Range
Appointed Executives	$67,642 - $160,222
Board and Commission Executives	$0 - $118,935

Legislators

The LCC recommended that legislative daily pay be raised to $130 from $117 for each calendar day of the annual general session, veto-override, special session and other Legislative authorized meetings. LCC also recommended that the President of the Senate and the Speaker of the House each receive an additional $3,000 per year, while the majority and minority leaders of each house receive an additional $2,000 per year.

House Bill 287, *Legislator Salary Amendments* (Litvack), rejected the increases recommended by the LCC. Through calendar year 2011, Legislators' salaries remain set at $117 for each calendar day of the annual general session, veto-override, special session and other Legislative authorized meetings.

Optional health, dental and life insurance benefits are available for legislators who choose to enroll. Legislators may choose to participate in individual, dual, or family coverage and the State will pay 95 percent of the premium for health insurance and 95 percent of the premium for dental insurance. The State pays the full premium for basic life insurance coverage of $25,000 for each legislator who enrolls in the program.

Medicare supplemental insurance is an additional retirement benefit for legislators who retire after January 1, 1998 and who have reached age 65. Retired legislators must have served four years to qualify. The portion of the premium that the state pays is determined by the number of years a legislator has served. For each year of legislative service, the state pays 10 percent of the benefit, with full premium paid for 10 or more years of service. Legislators who retire prior to age 65 may apply for this benefit if they maintain Public Employee Health Program (PEHP) health insurance coverage at their own expense until they are eligible to apply. This benefit also applies to a legislator's spouse.

For legislators in office before July 1, 2011, Tier I retirement benefits as established by the *Governor's and Legislators' Retirement Act* provides a base benefit that has been indexed upward to $26.80 (as of July 1, 2009) per month for each year of service. An additional $3.50 per month, for each year of service, is payable to members of this plan before March 1, 2000.

With Senate Bill 63's changes, legislators entering office on or after July 1, 2011 will receive Tier II retirement benefits that include only the defined contribution option - a 10 percent contribution to the legislator's defined contribution plan.

State Employees

To address the rising cost of state employees' benefits, the Legislature adopted measures respecting health insurance, retirement systems and plans, and post-retirement employment issues.

House Bill 6, *State Agency Compensation Appropriations* (Dee), approved funding for half of the employer's portion of the rate increase in health care premiums. The other half of the rate increase in health care premiums will be funded through benefit plan changes. The health care premiums percentage breakout between the State and employees on the Preferred Care, Advantage Care, and Summit Care plans is the same as FY 2010. However, employees will see a slight increase in the dollar amount of their health care premiums because they must fund their own portion of the increased health care premium.

The benefit plan changes will increase the out-of-pocket maximum to $2,500 per individual, $5,000 per double, and $7,500 per family. There will also be an additional out-of-pocket maximum to the pharmacy benefit of $3,000 per individual.

Senate Bill 43, *Post-Retirement Employment* (Liljenquist), amends provisions related to a retiree who returns to work for a participating employer and the restrictions on the maximum retirement allowance certain employees can accrue. In addition, beginning July 1, 2010 a retiree may not return to work with any Utah Retirement System (URS) covered entity within one year of retirement. The separation requirement also prohibits part-time and contract work during the separation period.

As noted earlier, Senate Bill 63 creates two tiers of retirement programs: Tier I retirement systems and plans provide full retirement benefits after 30 years of service (20 years for public safety/fire employees), four percent cost-of-living adjustments on the retirement allowance, a two percent multiplier for each year of service using a three-year final average salary, and a 401(k) employer contribution.

Tier II retirement systems and plans include two options: i) a hybrid option - full retirement benefits after 35 years of service (25 years for public safety/fire employees), 2.5 percent cost-of -living adjustments on the retirement allowance, a 1.5 percent multiplier for each year of service using a five-year final average salary, and a 401(k) employer contribution; and ii) a defined contribution option - 10 percent contribution (12 percent for public safety/fire employees) to the employee's 401(k) plan.

Public and Higher Education

Employees at the Utah State Offices of Education, Rehabilitation, and Higher Education are state employees and participate in state compensation and benefits plans. Employees of public schools and higher education institutions participate in state benefits programs; but compensation is set by school districts and higher education institutions.

The Legislature did not change the value of the Weighted Pupil Unit at $2,577 for FY 2011.

Judicial Officials

Under provisions of Section 67-8-2, UCA, the salaries are approved for FY 2011 that are calculated in accordance with statutory formula and rounded to the nearest $50. Salaries for judges for FY 2011 are listed below.

Judicial officials receive retirement benefits based on age, actual service credit, final average monthly salary, and a sliding scale benefit formula. Senate Bill 63 makes no changes to the retirement program for judicial officials.

State of Utah

Appropriations Bills Summary

This section lists state appropriations in the major appropriations acts, Senate Bill 1, House Bill 2, House Bill 3, and House Bill 6. Supplemental appropriations are detailed in Senate Bill 3. This section also shows the Minimum School Program appropriations, as contained in House Bill 4, Senate Bill 2, and House Bill 1. Appropriations by other bills are also included.

NOTES TO APPROPRIATIONS BILLS

Senate Bill 1, *State Agency and Higher Education Base Budget* (Hillyard)

Senate Bill 1, *State Agency and Higher Education Base Budget* (Hillyard), provides fundamental budget authority to state agencies and institutions from a variety of funding sources for FY 2011. For summary purposes, individually authorized state programs are not necessarily identified in this budget document.

Item 2 This item includes funding of $100,000 Beginning Nonlapsing Appropriation Balances and ($100,000) Closing Nonlapsing Appropriation Balances.

Item 53 This item transfers revenue from the Education Fund to the Uniform School Fund (USF) in order to provide necessary funds for program expenditures appropriated from the USF in FY 2011.

House Bill 2, *Fiscal Year 2010 and Fiscal Year 2011 Supplemental Appropriations* (Bigelow)

House Bill 2, *Fiscal Year 2010 and Fiscal Year 2011 Supplemental* (Bigelow), provides supplemental budgetary authority to state agencies and institutions for FY 2010 and FY 2011 from a variety of funding sources. For summary purposes, individually authorized state programs are not necessarily identified in this budget document.

Item 48 This item includes funding of ($450,000) Beginning Nonlapsing Appropriation Balances and $450,000 Closing Nonlapsing Appropriation Balances.

Item 49 This item includes funding of ($1,000,000) Beginning Nonlapsing Appropriation Balances and $1,000,000 Closing Nonlapsing Appropriation Balances.

Item 152 This item increases the Capital Outlay Acquisition by $2,000,000.

Item 156 This item reduces the Uniform School Fund by ($2,134,853,823) and increases the Education Fund by the same amount.

Item 158 This item includes funding of $2,798,300 ongoing and ($2,798,300) one-time General Fund for the new line item Workforce Services - Administration.

Item 159 This item includes funding of $57,228,100 ongoing and ($57,228,100) one-time General Fund for the new line item Workforce Services - Operations and Policy.

Item 160 This item includes funding of $4,896,500 ongoing and ($4,896,500) one-time General Fund for the new line item Workforce Services - General Assistance.

House Bill 3, *Appropriations Adjustments* (Bigelow)

House Bill 3, *Appropriations Adjustments* (Bigelow), provides supplemental budgetary authority to state agencies and institutions for FY 2010 and ongoing and one-time authority FY 2011 from a variety of funding sources. Appropriations are designated in numbered line items for specific state programs. This appropriations bill is primarily the compilation of appropriations authorized by individual legislative bills. For this reason, this bill is commonly known as the Bill of Bills. For summary purposes, individually authorized state programs are not necessarily identified in this budget document.

Item 14 This item includes the addition of 10 FTE to replace 10 Schedule AL employees.

Item 69 This item includes a one-time General Fund cut of ($18,000) and an ongoing General Fund backfill of $18,000, thus the line item total of zero.

Item 75 This item includes the addition of 10 FTE to replace 10 Schedule AL employees.

Item 76 This item authorizes $300,000 for claims processing software.

Item 81 This item includes funding of $2,000,000 ongoing and ($2,000,000) one-time General Fund for the new line item Workforce Services - Operations and Policy.

Item 88 This item includes funding of $30,000 ongoing and ($30,000) one-time for the future implementation of House Bill 35, *Controlled Substance Database - Reporting of Prescribed Controlled Substance Overdose or Poisoning* (Daw).

Item 93 This item includes funding of $100 ongoing and ($100) one-time for the future implementation of House Bill 232, *Medical Language Interpreter Amendments* (Chavez-Houck).

Item 151 This item includes funding of $1,244,000 ongoing and ($1,244,000) one-time General Fund for operations and maintenance of the Health Science Building at Utah Valley University.

Item 152 This item includes funding of $712,000 ongoing and ($712,000) one-time General Fund for operations and maintenance of the Centennial Commons at Dixie State University.

House Bill 6, *State Agency Compensation Appropriations* (Dee)

House Bill 6, *State Agency Compensation Appropriations* (Dee), provides compensation authority to state agencies and institutions for FY 2010 and FY 2011 from a variety of funding sources. Appropriations are designated in numbered line items for specific state programs. For summary purposes, individually authorized state programs are not necessarily identified in this budget document.

Senate Bill 3, *Current Fiscal Year Supplemental Appropriations* (Hillyard)

Senate Bill 3, *Current Fiscal Year Supplemental Appropriations Act* (Hillyard), provides supplemental budgetary authority to state agencies and institutions for FY 2010 from a variety of funding sources. Appropriations are designated in numbered line items for specific state programs. For summary purposes, individually authorized state programs are not necessarily identified in this budget document.

Item 30 This item shifts $2,397,200 of revenues from the USF back to the Education Fund thereby reducing the available amount in the USF for allocation in FY 2010.

House Bill 4, *Current School Year Supplemental Minimum School Program Budget Adjustments* (Newbold)

House Bill 4, *Current School Year Supplemental Minimum School Program Budget Adjustments* (Newbold), amends the Utah Code to provide the State's contribution and related budget authority to the State Board of Education for distribution of FY 2010 funding to local school districts. School districts assess a uniform basic property tax levy for maintenance and operations that is supplemented from the USF. This combination of state and local funds for public education programs is generally allocated by formula, based on the Weighted Pupil Unit (WPU).

Senate Bill 2, *Minimum School Program and Public Education Amendments* (Stephenson)

Senate Bill 2, *Minimum School Program and Public Education Amendments* (Stephenson), provides additional funding adjustments for public education for FY 2011.

House Bill 1, *Minimum School Program Base Budget* (Newbold)

House Bill 1, *Minimum School Program Base Budget* (Newbold), amends House Bill 4, *Current School Year Supplemental Minimum School Program Budget Adjustments* (Newbold), to provide the State's contribution and related budget authority to the State Board of Education for distribution of FY 2011 funding to local school districts. For FY 2011, the WPU is valued at $2,577 which is the same value as the previous year.

Bills Carrying Appropriations

In addition to the above listed appropriations acts, a number of bills were passed by the Legislature that carry their own appropriation. Each bill specifies the state agency or institution receiving funds, the purpose of the appropriation, the amount of the appropriation, the source of funds, and the fiscal year impacted. See Table 45.

Table 48 shows bills passed by the 2010 Legislature that will increase or decrease revenue going into the General Fund, Education Fund, and/or Transportation Fund. Bills shown in this table affect revenue from which appropriations are made, but do not directly impact appropriations to agency budgets. For bills that directly impact appropriations to agency budgets, see Table 45.

GOVERNOR'S VETOES

Governor Herbert vetoed three bills and four line items from the 2010 Legislative General Session. All other bills were either signed or allowed to pass into law.

2010 General Session Vetoes

House Bill 3, *Appropriations Adjustments* (Bigelow); items 21, 102, 104, and 105 were vetoed for technical corrections.

House Bill 12, *Criminal Homicide and Abortion Amendments* (Wimmer), would have created a potential criminal liability for a woman who miscarries her unborn child. This bill sought to create a distinction between a legal abortion and criminal homicide of an unborn child by defining abortion as a procedure under the direction of a licensed physician, while it defined criminal homicide of an unborn child as an attempt to terminate the fetus by means other than those under the direction of a physician, including reckless behavior. The definition of reckless behavior in this bill is ambiguous enough that well-intended pregnant women who lose their child could have potentially been found guilty of criminal homicide.

The Governor instead signed House Bill 462, *Criminal Homicide and Abortion Revisions* (Wimmer), which creates the same distinction between a legal abortion and criminal homicide, but clarifies that unknowing or unintended reckless behavior that results in the death of the unborn child does not constitute criminal homicide.

Senate Bill 22, *Notary Public Amendments* (Knudsen), would have repealed the provisions of Utah law requiring that those seeking to become notaries pass a written test. This test ensures that notaries understand the duties and responsibilities that they undertake.

Senate Bill 47, *Electrical Utility Amendments - Efficiency and Conservation Tariffs* (Van Tassell), would have required customers of electric corporations to participate in direct load control programs, such as Rocky Mountain Power's Cool Keeper program, with the option to not participate. Steps toward conserving energy while keeping electricity costs down are laudable goals but are best achieved through continued education campaigns and voluntary participation.
