

GOVERNOR'S OFFICE OF Planning & Budget

EFFICIENCY AND PROCESS IMPROVEMENT COMMITTEE (EPIC)

ADVISORY COMMITTEE

GOPB established EPIC as an advisory committee comprised of representatives from agencies and others to advise on the efficiency evaluation process and integrate agency input and participation.

EFFICIENCY EVALUATIONS

EPIC participates in efficiency evaluations to support agency improvement efforts. This work includes developing a prioritized list of evaluation projects to recommend to GOPB for efficiency improvement.

MISSION

EPIC's mission is to foster a culture of continuous improvement that is collaborative and drives exemplary service for Utahns.

STATEWIDE IMPROVEMENT

EPIC is the platform from which we learn from agencies of their work and success, raise awareness of improvement efforts across state government, and engage a larger network of operational improvement champions across agencies.

IMPROVEMENT RESOURCES

The committee is tasked with convening and centralizing improvement resources. This effort includes EPIC's work facilitating a portfolio of convenience-use state cooperative contracts for agencies and public entities to access tools and consultation services and in developing a [continuous improvement resource repository](#) made up of tools, consultants, and valuable training opportunities.

AGENCY SUPPORT

EPIC members are a support to agencies in their improvement efforts, in particular, but not limited to, supporting agencies implementing recommendations from GOPB and LFA efficiency evaluations e.g. [DTS](#) and [OME](#).
