

Fiscal Year 2025
Budget Recommendations
Gov. Spencer J. Cox

Dec. 5, 2023

#### Friends:

I am so grateful to call Utah home. Our strong economy, vibrant communities, and high quality of life are why Utah is ranked the No. 1 state in the nation. In Utah, we plan, we build and we work together to ensure that our state is, and always will be, a home where future generations will thrive.

This budget invests in the elements that make our state an exceptional place to live.

Utah is home to generous, innovative, and hard-working people, so investing in our people is the key to ensuring a prosperous future. In this budget, we continue to invest in strengthening and supporting families — the fundamental unit of our society. We are proposing a holistic behavioral health support system that addresses the mental well-being of Utahns. We are also aligning our education systems and workforce to meet the needs of our state and to set our young people up for success.

Utah continues to grow, and proactive investments and long-term planning have helped Utah respond to the challenges and harness the opportunities growth brings. This budget recognizes the need to provide more opportunities and pathways to homeownership for Utahns. We refuse to accept a future where our young people can't afford to buy a home. This budget also prioritizes continued stewardship of our natural resources and investments in infrastructure that will support the needs of our growing population.

Finally, efficient, responsible and accountable government sets Utah apart. Utahns deserve a government that works for them, cares deeply about them, maximizes their taxpayer dollars and proactively takes action to mitigate high-risk areas to the state. That is why we are committed to delivering first-in-class customer service and investing in the areas that matter.

As Utahns, we embrace the challenges in front of us and we will work together to meet them head-on. Utah's sun is rising, and our future is bright. I have never been more hopeful for our state and I have never been more proud to call this place home. Let's go!

**STATE OF UTAH** 

Sincerely,

Spencer J. Cox Governor

#### **GOVERNMENT FINANCE OFFICERS ASSOCIATION**

# Distinguished Budget Presentation Award

PRESENTED TO

State of Utah Utah

For the Fiscal Year Beginning

July 01, 2023

Christopher P. Morrill

**Executive Director** 

Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the state of Utah for its Annual Budget for the fiscal year beginning July 01, 2023. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communications device. This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

# INTRODUCTION

- We are committed to ensuring Utah remains a home for generations to come
- We are investing in systems that support our most vulnerable populations and provide opportunities for all Utahns
- Our state's commitment to fiscal responsibility helps us plan for the future

## **SUMMARY**

Utah has consistently boasted the nation's best economy, leading in job growth, maintaining low unemployment rates, fostering a talented workforce, and showcasing unrivaled natural beauty. Our current success is a result of efforts made by the Utahns who came before us. This FY25 \$29.5 billion operating and capital budget honors their legacy and invests in the elements that have made our state a dynamic and welcoming home for so many.

This budget reflects \$854.6 million in new appropriations for public education (\$413.9 million of which is new revenue). Recommendations in the pages that follow reflect investments that will better support rural students, strengthen the teaching profession, foster innovation, keep schools safe, and lay the foundation for future investments. An important part of this investment is \$111 million that directly supports our teachers.

Housing remains a major challenge in every community in our state. Gov. Cox believes every

Utahn deserves the opportunity to own a home. To help make that a reality, the governor proposes meeting the projected demand of 35,000 new starter homes by 2028 with a transformational \$150 million recommendation. Given the current housing challenges, Gov. Cox believes it is time to rethink the way we deliver housing so that the next generation of Utahns can afford to own a home.

Along with expanding pathways to homeowner-ship, Gov. Cox is committed to keeping people housed in an environment of rising costs and inflationary pressures. The governor recommends continuing the effort to prevent homelessness and fill gaps in behavioral health services with \$64.9 million, including \$49.1 million in one-time funds. Additionally, Gov. Cox recommends supporting the emergency shelter system with \$12.7 million ongoing and \$115.3 million one-time funding to be spent over several years.

Families are a fundamental unit of our society, which is why the Cox-Henderson administration continues to focus efforts on strengthening families with \$68.8 million in investments in areas including childcare, affordable and accessible

health care, and expanded benefits for new parents.

In addition to keeping families strong and being the state with the largest families, Utah consistently leads the nation in volunteering and civic engagement. To elevate this cultural value, the Cox-Henderson administration recommends investing \$14.4 million in volunteer and service efforts, which includes a service pilot program for high school students and young adults (\$1.3 million ongoing and \$5 million one-time). The governor also recommends providing investments that will incentivize service and retention in Utah's National Guard, such as \$1.7 million for tuition assistance and \$6 million for reenlistment bonuses.

The Cox-Henderson administration is committed to aligning our workforce to meet industry needs and recommends meaningful investments to enhance pathways to high-quality jobs in critical areas. The governor is recommending \$2.9 million ongoing and \$3.9 million one-time funds to address behavioral health labor force needs as well as \$7 million ongoing to build out the workforce in the life sciences industry.

Additionally, this budget lays the foundation for our future with continued investments in water, transportation, recreation, and open spaces. Over the past 2 years, the state has invested more than a billion dollars in efforts related to water. This budget continues that momentum with an additional \$81.6 million to improve how we manage our water and watersheds.

Finally, this budget supports the continued practice of good governance and fiscal responsibility by addressing key risk areas to the state, continuing to pay down debt, and investing in a performance-driven employment culture that seeks to enhance service delivery.

Additional details on these recommendations and more are found in the pages that follow.

# ECONOMIC BACKDROP AND OUTLOOK

Utah's economy experienced large swings through the COVID-19 pandemic-related recession and its aftermath. This volatility has recently eased and the state's economy appears to be headed toward Utah's sustainable historic norms. The state enjoyed the highest labor force participation rate<sup>2</sup> in the nation, at 69.7%, compared to a national average of 62.8% in the first three quarters of 2023. The latest employment report<sup>3</sup> implies that Utah is experiencing healthy job growth, at 2.2% on a year-over basis, and unemployment at a 2.7% rate during a time of national labor market cooling. Current state gross domestic product data suggest that the state's inflation-adjusted economic output has grown at just under 2%. While consumer sentiment4 remains below 2020 levels. Utah consumers report that they are more optimistic than most in the nation. Overall, the state's economy can be characterized as robust and appears to be returning to a steadier state.

Most economists interpret the recent deceleration in economic growth as a signal that the national economy is normalizing with a solid chance of avoiding recession. Most economists currently believe that in the event the economy faces recession, an upcoming downturn would be relatively short and shallow. It is anticipated that Utah will avoid a recession, and that the state's strong economic fundamentals will help us weather a downturn in the business cycle should one materialize. The governor's FY25 budget is responsive to the fact that maintaining the trajectory of modest economic growth requires prudent investments.

## **REVENUE FORECAST**

Revenue forecasts provide the foundation for the governor's budget. The Governor's Office of Planning and Budget (GOPB), the Office of the Legislative Fiscal Analyst (LFA), and the Utah State Tax Commission (Tax Commission)

independently estimate revenue collections and then come together to agree on the final projections used for budgeting. Ultimately, this process provides point estimates for unrestricted General Fund, Income Tax Fund (ITF), Transportation Fund, and earmarked sales and use tax revenues. This section compares FY23 revenue consensus estimates against actual collections and summarizes recent estimates for FY24 and FY25.

## FY23 Revenue Collections and Closeout

General Fund collections came in close to target. with the fiscal year closing with a revenue deficit of about \$950,000 relative to the forecast made during the 2023 General Session. Although sales tax collections came in lower than expected, this was offset by strong growth in investment income which benefited from higher interest rates on state investments. With an additional \$70.2 million in budget savings and other adjustments, FY23 closed with a \$69.3 million General Fund budget surplus.

FY23 closed with an ITF deficit of \$146.8 million

relative to forecaster estimates that was primarily the result of volatile net final payments normalizing faster than expected after an extremely high growth rate in FY22. The total deficit was reduced to \$119.2 million after budgetary transfers into the ITF.

Overall, FY23 closed with the state's combined General Fund and ITF ending in a net \$49.9 million total budget deficit, consisting of about \$147.8 million in revenue deficit and about \$97.9 million in budget savings and other adjustments. Due to higher-than-normal uncertainty in the FY23 revenue forecast, contingencies were incorporated into the budgeting process enabling the state to cover the \$49.9 million deficit.

## FY24 and FY25 General Fund and Income Tax Fund November Revenue **Estimates**

In November 2023, GOPB, LFA, and the Tax Commission revised the state's FY24 revenue forecast and developed a consensus revenue forecast for FY25 (see Table 1). The results suggest that there is an estimated \$504

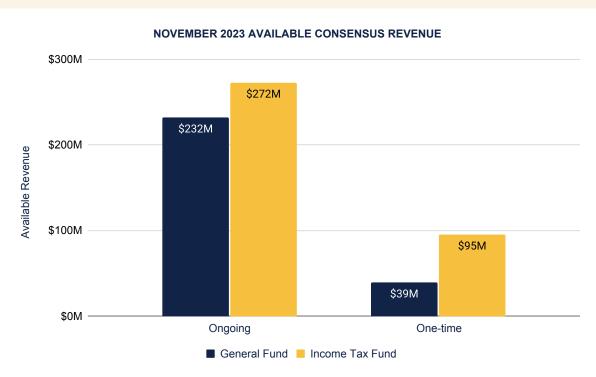

FIGURE 1: November 2023 Available Consensus Revenue

Source: Governor's Office of Planning & Budget

million in available ongoing General Fund and ITF revenue and \$134 million in available one-time unrestricted General Fund and ITF revenue. As shown in Figure 1, about \$272 million of the new ongoing revenue comes from the ITF, with \$232 million from the sales-tax-supported General Fund. One-time revenue shows a similar pattern with \$95 million available one-time from the ITF and \$39 million available one-time from the General Fund. These estimates reflect revenue growth, available revenues such as unappropriated revenue from previous years, and the FY23 budget deficit.

The Legislature appropriated a combined total of \$1.1 billion to pre-fund transportation debt service in FY24 and FY25, contingent on actual revenue collections meeting or exceeding revenue estimates. Gov. Cox recommends retaining half (\$555 million) of the amount appropriated by the Legislature to continue pre-funding debt service. The governor's budget recommends reallocating the remaining half of the debt set-aside (\$555 million) to fund critical needs.

## **BUDGET BASICS**

## Where the Money Comes From

Major revenue sources to fund Utah government programs include taxes, fees, federal funds, and lapsing and non-lapsing balances.

#### State Taxes and Fees

The state of Utah imposes various taxes and fees to fund government programs. The individual income tax and state sales and use tax are by far the two largest state-collected revenue sources. Other revenues include a corporate franchise and income tax; motor and special fuel taxes (commonly called gas taxes); severance taxes on oil, gas, and mineral extraction; beer, cigarette, and tobacco taxes; and insurance premium taxes. These tax revenues are deposited into various state accounts, which are sometimes called "funds." The Legislature passes budget bills that authorize the use of revenues deposited into these accounts for designated purposes.

The largest source of state-collected revenues is the individual income tax. The Utah Constitution requires that the estimated \$6.4 billion of individual income tax and \$801 million of corporate income tax be available in FY25 to support K-12 public education, higher education, children, or individuals with a disability. The ITF will also receive an estimated \$62 million from withholding on mineral royalties income and \$73 million from non-income tax sources in FY25.

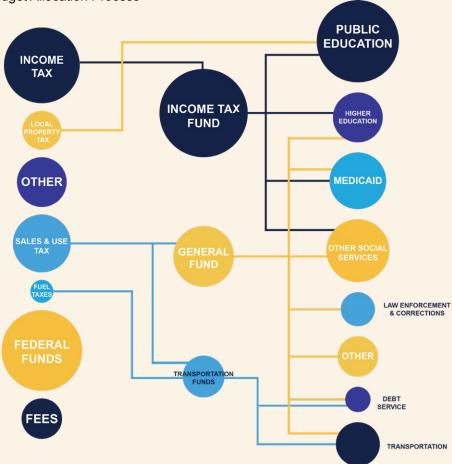

The sales and use tax is the largest revenue source for state government operations, generating an estimated \$4.7 billion in FY25 revenues. A large portion of sales and use tax revenues (\$3.4 billion) is deposited into the General Fund and the remaining \$1.2 billion is earmarked for non-General Fund uses, including \$933 million for transportation, \$136 million for certain Medicaid expenses, \$45 million for outdoor recreation infrastructure, and more than \$132 million for water and other purposes.

The Utah Constitution also requires the state to use "proceeds from fees, taxes, and other charges related to the operation of motor vehicles on public highways and proceeds from an excise tax on liquid motor fuel" for transportation purposes. Consequently, motor and special fuel taxes or "gas taxes," along with registration and other fees (\$874 million) are deposited into the Transportation Fund to be used for transportation purposes.

In addition to \$3.4 billion of sales and use taxes, the General Fund will receive an estimated \$842 million from other taxes and revenue in FY25, including the following:

- \$212 million in insurance premium taxes,
- \$142 million in profits from alcohol sales by the Department of Alcoholic Beverage Services (DABS),
- \$89 million in beer, cigarette, and tobacco taxes,

FIGURE 2: Utah's Budget Allocation Process

Note: Illustrative of the most significant sources and uses but doesn't show the flow of all funds Source: Kem C. Gardner Policy Institute, Governor's Office of Planning & Budget

- \$47 million in severance taxes on oil, gas, and mineral extraction,
- \$23 million in cable and satellite excise taxes.
- \$225 million in investment income, and
- \$105 million of other non-tax revenues such as legal settlements, transfers of certain fee revenues and credits, and a portion of the annual revenue from the Tobacco Master Settlement Agreement.

In addition to tax revenues, the state collects about \$1 billion in fees each year. Revenue collected from fees is intended to tie to the cost of providing specific government services or regulations directly to the user of the service, as opposed to the general taxpayer. In some cases, fees are deposited into restricted accounts that

1 This figure excludes higher education tuition and fees, which total about \$1 billion.

are appropriated for specific programs. In other cases, the fees are recorded as dedicated credits available to support operations under the budget line item where they are appropriated and collected. State statute requires that state-imposed fees be reasonable, fair, and based on the cost of services or regulatory activities supported by the fees and that a public hearing be held prior to fee adoption.

The state expects to receive \$489 million in opioid settlement funds between 2022 and 2039, with half available at the state level and the remaining half available to counties. The state-level portion will be deposited in the Opioid Litigation Settlement Restricted Account. As of October 2023, nearly \$31 million of payments have been received with an additional \$23 million anticipated by the end of FY24. Anticipated collections for FY25 total \$18 million.

The governor recommends that settlement funds be used to prevent opioid misuse and improve the health and well-being of people with opioid use disorder, including support in the criminal justice system and with housing.

#### Lapsing and Non-Lapsing Balances

Amounts appropriated to state agencies but not expended during the year of appropriation are either returned to the fund from which they came (lapsing balances) or remain with the agency for expenditure (non-lapsing balances). The Legislature grants non-lapsing authority to agencies in statute or appropriations intent language.

### Where the Money Goes

The governor's budget and legislative appropriations process primarily focus on the state's \$29.5 billion operating and capital budget, which includes funding for program operations and capital projects. Expendable funds and accounts are typically displayed along with the operating and capital budget. The governor and Legislature also budget for an additional \$6.1 billion outside of the operating and capital budget, including inter-account transfers, internal service funds, enterprise funds, loan funds, and capital project funds. Because these additional sections of the budget include significant amounts of funding already accounted for in the operating and capital budget, they are typically displayed in separate tables to avoid double-counting.

The governor's FY25 budget includes \$12.6 billion from the General Fund, ITF, and Uniform School Fund. Total FY24 and FY25 funding levels for these core state funds are summarized in Table 4. Recommended changes for FY24 and FY25 are summarized in Table 10. Total FY24 and FY25 funding levels for the broader operating and capital budget are summarized in Table 5, with recommended budget changes funded by other sources summarized in Table 12.

#### Rainy Day Fund Balances

Unusually high economic growth and strong revenue performance during the pandemic boosted Utah's rainy day reserves to historic levels. The

state's major rainy day funds remain healthy at the end of FY23 with balances of \$1.4 billion. Rainy day fund balances include the ITF Budget Reserve (\$856 million), General Fund Budget Reserve (\$330 million), Medicaid Growth Reduction and Budget Stabilization (\$114 million), and Disaster Recovery (\$79 million).

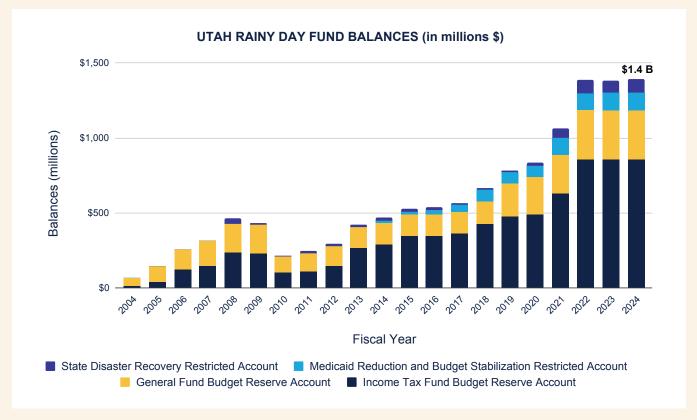

In FY23, the State Disaster Recovery Restricted Account balance decreased by \$10.5 million due to a \$10 million transfer to the newly created Response, Recovery, and Post-Disaster Mitigation Restricted Account and a \$500,000 expense from the governor's emergency line item. The governor recommends replenishing this reserve account in FY24 with a \$10.5 million reallocation from General Fund deposits appropriated to the Wildland Fire Suppression Fund. This replenishment will maintain rainy day fund balances at peak levels.

#### **Earmarks**

Utah's long-term fiscal health requires a prudent budget prioritization framework. The process is weakened to the degree that state tax revenue is statutorily earmarked for specific purposes. Programs funded with earmarked revenues do not fully compete against other state needs, potentially resulting in a less efficient allocation of state dollars. Such earmarks tend to become viewed as captured revenue—revenue belonging only to those benefiting from the earmark—rather than as general taxpayer dollars focused on the highest priority use. As Figure 4 shows, earmarking has grown dramatically in the past 15 years.

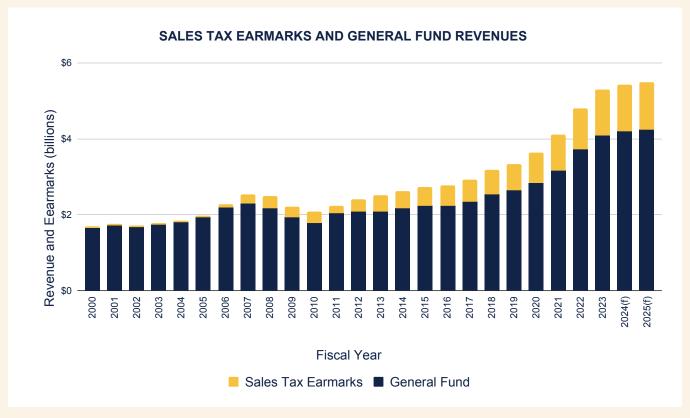

In FY25, 27%, or about \$1.2 billion, of sales tax revenue will be earmarked. When recent ITF earmarks are included with General Fund earmarks, nearly \$1.6 billion of general state revenue will be earmarked (see Table 2).

# **FEDERAL FUNDS**

The governor's budget acknowledges and balances multiple federal and state funding sources to maximize the impact of federal and state taxpayer dollars for the benefit of all Utahns. This section highlights the primary sources of federal funding received by the state.

#### Federal Taxes

Utah taxpayers paid more than \$38 billion in taxes to the federal government<sup>5</sup> during the 2022 federal fiscal year, including \$35.3 billion in individual income taxes, FICA, and employment taxes; \$1.6 billion in business income taxes; and \$1.1 billion in excise, estate, and other taxes. The federal government spends money several ways, including payments to federal employees and contracted businesses, retirement and non-retirement benefits to individuals through programs like Social Security, and programs that flow through state or local governments such as Medicaid and education.

#### Federal Funding in the State Budget

Studies show that Utah is among the states that least depend on federal funding. A 2023 Federal Funds Information for States<sup>6</sup> study ranks Utah as the third-lowest in per capita federal spending, and a recent federal spending report from the Pew Charitable Trusts<sup>7</sup> shows that Utah has the second-lowest total of federal funding compared to all revenue sources. A primary reason Utah receives a smaller portion of federal funds is that many large federal programs serve older Americans (e.g., Social Security and Medicare) while Utah has the youngest population in the nation.<sup>8</sup>

Utah's budget is set to receive just over \$8 billion from federal funds to support a variety of services. Programs like Medicaid require a state match to combine state and federal funding. Some federal funds flow through the state to local entities such as school districts, counties, and cities.

# Federal Relief and Infrastructure Funds COVID-19 Relief Funds

The state of Utah has received billions in COVID-related federal stimulus dollars. This funding was distributed to a variety of entities, with consumers, businesses, and state and local governments receiving direct allocations. The money funded critical response, recovery, and infrastructure projects. It also provided direct support to Utah businesses, families, and individuals.

The primary federal legislation that enacted pandemic response stimulus funding were the following:

- Coronavirus Aid, Relief, and Economic Security Act (CARES Act),
- Families First Coronavirus Response Act (FFCRA),
- · Consolidated Appropriations Act of 2021, and
- American Rescue Plan Act (ARPA).

Combined, it is estimated that Utah received more than \$31 billion in relief federal funding<sup>9</sup> through programs authorized by these bills, along with related existing programs. This includes nearly \$21 billion in direct relief to businesses, families, and individuals. The state of Utah and its two largest counties received a total of \$1.25 billion from the CARES Act Coronavirus Relief Fund. Additional assistance was provided through the Federal Emergency Management Agency (FEMA) (more than \$386 million to date) and the ARPA State and Local Fiscal Recovery Fund (SLFRF), which provided \$1.4 billion at the state level and \$1.1 billion to cities and counties. To date, 100% of state-level CARES Act funds have been spent and nearly 100% of SLFRF have been allocated to specific projects. All SL-FRF funds must be obligated by Dec. 31, 2024 and spent by Dec. 31, 2026.

ARPA also included \$137.9 million from the Coronavirus Capital Projects Fund for the state

of Utah. These financial resources are earmarked for capital projects aimed at enhancing disproportionately impacted communities' access to employment, education, and telehealth services. Utah has received approval for \$82.9 million from the Capital Project Fund, with an additional \$55 million of projects currently under review by the U.S. Treasury. All Capital Project Funds must be spent by Dec. 31, 2026.

As of December 2023, the state has access to \$51 million of interest earnings from ARPA SL-FRF funds that are available to deposit into the General Fund to be used without any restrictions. Additionally, due to unused balances from the pandemic public health mitigation appropriation (\$8.6 million), other set-asides for emergency response (\$4.3 million), the emergency disease response appropriation (\$2.9 million), and projects that are unable to meet the spending deadline in the GOPB Local Assistance Matching Grant Program (\$632,700), a total of \$16.4 million is being recommended for reallocation.

The governor recommends reallocating these funds for no-climb fences for secure care

facilities (\$1.4 million) and deeply affordable housing (\$15 million).

Infrastructure Investment and Jobs Act

The Infrastructure Investment and Jobs Act (IIJA) authorized a total of \$1.2 trillion in spending. Unlike ARPA and CARES Act funding, IIJA does not provide the state with highly discretionary funding managed on a statewide level. Funds are distributed through new and existing grant programs which are managed at the state agency level. IIJA funding is meant to address long-term investments in transportation, energy, water, broadband, public lands, and the environment. As a state, we value fiscal responsibility and long-term planning. IIJA funds and state applications for those funds are being carefully coordinated<sup>10</sup> by GOPB and implemented with long-term investments in mind.

Current estimates for Utah funding from this legislation total \$4.9 billion. Of this total. \$3.6 billion is formula funding through reauthorization and expansion of existing formula programs. New formula funding is estimated at \$953 million. Utah has been awarded \$290 million in competitive grants to date.

INVESTING IN OUR GREATEST RESOURCE— **OUR PEOPLE** 

# PEOPLE

- Elevate the teaching profession and enhance opportunities for all Utah students
- Support and strengthen policies that provide positive outcomes for families
- Invest in a holistic behavioral health support system that addresses the needs of vulnerable Utahns

## **SUMMARY**

The Cox-Henderson administration prioritizes access to opportunity for all by supporting the well-being of Utah families and communities. This budget reflects a commitment to the success of Utahns by investing in families, education, service, and workforce opportunities. It also recognizes critical needs of some of the most vulnerable populations by making investments toward alleviating homelessness, enhancing victim services, and expanding access to social services.

# STRENGTHENING FAMILIES

The Cox-Henderson administration recognizes families as foundational to society and prioritizes policies that strengthen all families. Broadly, the governor recommends funding to support post-partum and adoption bonding, support families to form and grow, increase accountability of social media companies, and provide safety nets for vulnerable youth.

Parental and postpartum recovery leave enables new parents to take critical time to recover and bond with their new child. Gov. Cox recommends expanding state employment leave benefits to cover the birth and adoption of a child and foster parental bonding. To further help all families thrive, Gov. Cox recommends \$4.7 million to expand the existing child tax credit<sup>11</sup> to cover children through age five. The governor also recommends investing \$5 million to expand childcare services through a public-private partnership recommended by the Unified Economic Opportunity Commission.

Utah families recognize the damage social media inflicts on their children. The U.S. Surgeon General warns that social media can have a profound risk of harm to the mental health and well-being of children and adolescents. In 2023, 19.8% of Utah middle and high school students reported self-harm and 17.6% reported seriously contemplating suicide. Media companies intentionally design their platforms to be addictive, knowing the harm they inflict on young users. As a result, the state is taking

legal action against social media companies for the damage their platforms inflict on our youth. Gov. Cox recommends \$796,800 ongoing and \$250,000 one-time to support the Division of Consumer Protection in enforcing Utah's social media regulations.

19.8%

17.6%

Utah middle and high school students reported contemplating suicide

Source: Utah Department of Health and Human Services

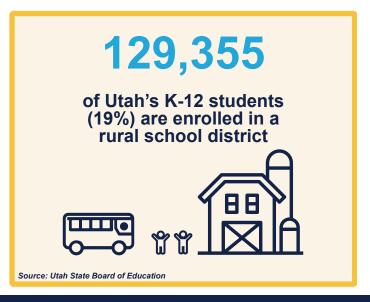

The Cox-Henderson administration also supports opportunities to address critical gaps in support for vulnerable children and youth. To address the challenge of youth aging out of foster care, the governor recommends \$1 million to employ evidence-based, child-focused methods to connect these youth with permanent families. Acknowledging the significance of kinship care in the state's foster care strategy, Gov. Cox recommends \$750,000 to provide 20,000 hours of case management services. To assist the 1 in 14 children and youth facing parental or caregiver loss, Gov. Cox recommends \$400,000 to proactively identify and support bereaved youth using Department of Health and Human Services (DHHS) data. The governor also recommends \$1.9 million, including \$745,000 ongoing, to draw down more than \$26 million in federal funds to provide meals for eligible K-12 students during the summer, and \$2 million for a food bank in Washington County.

## **PUBLIC EDUCATION**

The Cox-Henderson administration is committed to a student-centered, purpose-driven, and forward-thinking K-12 education system. The governor recommends \$854.6 million in new appropriations for public education (\$413.9 million of which is new revenue) that will better support rural students, strengthen the teaching profession, foster innovation, keep schools safe, and lay the foundation for future investments. This includes \$34 million for rural schools, \$111 million for teachers, and a 5% increase in the Weighted Pupil Unit (WPU).

Rural school districts incur higher costs than those in urban areas. Gov. Cox believes it is time to update the state's funding model to better support rural school needs. The governor recommends replacing the current program with a rural student WPU add-on and investing up to an additional \$34 million for rural schools (\$32.7 million ongoing and \$1.2 million one-time). Gov. Cox also recommends \$55 million one-time to support capital development in small school districts.

Teachers are paramount to a strong education system. To make the profession more accessible, Gov. Cox recommends \$12 million one-time for a pilot project to pay student teachers. The governor also supports a cost-neutral policy change that authorizes the immediate re-employment of any high-quality teacher who retires and

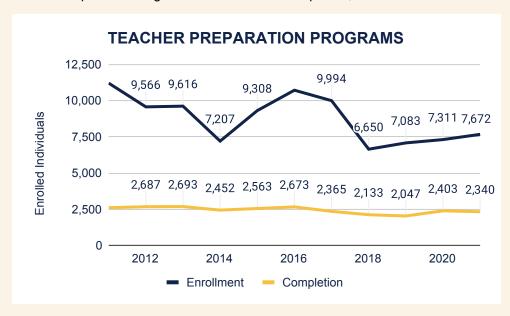

wishes to continue teaching. To support teacher success, Gov. Cox recommends \$90 million onetime for paid preparation time.

Public schools employ various initiatives that support educators and improve student outcomes. Gov. Cox recommends \$200 million one-time for an Innovation Grant Fund to expand effective and innovative programs at the local level. Gov. Cox recognizes that students and teachers focus best on education when they are safe from harm. As it relates to school safety, the governor recommends \$250,000 ongoing for the Department of Public Safety (DPS) to hire

specialists who will help local education leaders implement new safety standards.

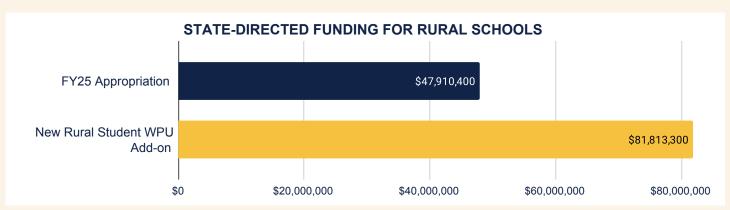

The governor supports a renewed focus on strategic planning to strengthen governance and better align Utah's K-12 vision with current student and community needs. Gov. Cox recommends \$250,000 one-time for Utahns and education leaders to collaborate on an updated vision for public education. For a complete list of the governor's budget recommendations for public education, please see Table 16.

21

### **SERVICE**

Service is a core value for Utahns and we consistently lead the nation in volunteering. The Cox-Henderson administration is committed to further strengthening this culture by promoting service among youth, state agencies, and businesses.

To that end, the governor recommends \$3 million one-time for a service pilot program in Utah high schools to establish expectations for service hours, facilitate service activities focused on community engagement, and incorporate opportunities for recognition.

Gov. Cox also recommends \$3.3 million for UServeUtah to establish a national year of service fellowship program that would provide stipends to young adults who participate. This program will also direct service hours to areas of significant state needs, like mental health services and education tutoring.

To further state agency and business community service involvement, Gov. Cox issued two executive orders and is further incentivizing National Guard service:

- Executive Order 2023-08 encourages each state agency to organize a department-wide service project and gives employees four hours of administrative leave to participate.<sup>15</sup>
- Executive Order 2023-09 adds a community service component to businesses seeking economic development incentives from the state, requiring them to provide at least 20 service hours per high-paying job per year for the duration of the incentive.<sup>16</sup>
- The governor also recognizes those who serve their state and their country in the Utah National Guard. To better incentivize guard member enlistment and retention, Gov. Cox recommends \$1.7 million for tuition assistance and \$6 million for reenlistment bonuses.

# WORKFORCE AND HIGHER EDUCATION

Utahns deserve quality education that prepares them for meaningful opportunities. The governor's budget supports this with increased funding for the Utah System of Higher Education and targeted funding for specific workforce needs including life sciences, behavioral health, technical skills, and apprenticeships.

Utah boasts an excellent system of higher education, with U.S. News & World Report ranking Utah's colleges and universities #6 in the nation.<sup>17</sup> To maintain this system, the governor recommends \$130.7 million (\$111.5 million ongoing) from new revenue and \$37.7 million from previously set aside funding (\$6.3 million ongoing). This recommendation includes \$30 million ongoing in performance-based funding and \$11.9 million ongoing for workforce initiatives.

The life sciences industry supports thousands of jobs in fields including medical devices and diagnostics, biosciences distribution, pharmaceuticals, and research and development. Gov. Cox recommends \$7 million ongoing to expand access to certificate and degree programs that will increase opportunities for Utahns to obtain gainful employment in this important area.

The need for mental and behavioral health services is urgent.<sup>18</sup>

52.9%

Children in Utah with a mental or behavioral health condition who did not receive treatment or counseling

The property of the condition of the condition who did not receive treatment or counseling

Gov. Cox recommends \$2.9 million ongoing to add hundreds of new openings in mental and behavioral health degree programs with the intention of expanding the number of mental health professionals in the state, thereby easing the labor force shortage for these critical positions. Please see page 25 for more about what Gov. Cox is recommending to address this need.

Utah's technical colleges offer inexpensive certificate programs and apprenticeships in high-demand technical fields such as health care, technology, manufacturing, plumbing, welding, and culinary arts. Gov. Cox calls on all secondary school principals, and organizations that serve Utah's adult population to partner with a technical college to introduce youths and adults to available opportunities through assemblies and open houses. The governor recommends \$6.7 million ongoing to support growth in technical education and an additional \$2 million ongoing to increase apprenticeship opportunities. For a complete list of the governor's budget recommendations for higher education, please see Table 16.

## **ALLEVIATING HOMELESSNESS**

Alleviating homelessness requires a statewide comprehensive approach that addresses short-term needs and incorporates long-term strategies. The three areas of focus for the Cox-Henderson administration are stabilizing emergency shelters, expanding behavioral health care, and prioritizing prevention.

## Emergency Shelter

While preventing homelessness is the Cox-Henderson administration's ultimate goal, the governor's budget also supports alleviating the immediate crisis of chronic homelessness. The current emergency shelter system lacks sufficient capacity for existing needs. Additional emergency shelters are needed to provide a place to stay for those experiencing homelessness, especially chronic homelessness, and enable cities to enforce no-camping ordinances. Gov. Cox recommends \$10 million ongoing for homeless

services, as well as implementing an option at state liquor store registers to round up for a donation to the Pamela Atkinson Homeless Trust Fund. Additionally, the governor recommends \$90 million one-time to be spent over 3 years for these services as local governments work to participate in these costs. Gov. Cox also recommends \$2.5 million ongoing for the Homeless Shelter Cities Mitigation Account and \$25 million one-time to develop new low-barrier emergency shelters. This funding will help stabilize the current emergency shelter system and provide support for:

- Two non-congregate shelters,
- Two low-barrier shelters,
- Statewide winter response,
- Low-barrier shelter development, and
- Supporting cities that host emergency shelter sites.

**FIGURE 8:** Homelessness Emergency Shelter and Housing Support Strategies

\$10.6 M
HOME Courts
Judicial Diversion

\$8 M Behavioral Health \$30 M
Deeply Affordable
Housing

Investing in a holistic support system to make homelessness rare, brief, and non-recurring

Along with emergency shelters, it is imperative to prevent individuals in crisis from unnecessarily entering the criminal justice system. A promising approach to doing so is the Sequential Intercept Model<sup>19</sup> (SIM). The SIM reduces criminalization of the chronically homeless by offering trauma-informed care at the first point of contact. This model diverts individuals to emergency shelter and behavioral health care instead of jail and provides behavioral health and substance use treatment for those who are arrested.

#### Behavioral Health

Unaddressed mental and behavioral health issues increase an individual's risk of becoming chronically homeless. However, there is greater demand than supply for mental health services. The Office of Professional Licensure Review (OPLR) determined in 2023 that Utah requires a 40% increase in licensed behavioral health professionals, or 8,000 new workers, to meet current needs.<sup>20</sup> To alleviate the workforce shortages in the behavioral health system, Gov. Cox recommends the following investments:

 \$3.3 million one-time over three years for paid internships, loan forgiveness, and incentive programs for students at all levels of behavioral health care training,

- \$2.9 million ongoing for a rural receiving center and two additional mobile crisis outreach teams (MCOTs) that provide critical care for rural Utahns in crisis,
- \$1.1 million to staff the existing Atherton Community Treatment Center in West Valley City to stabilize and treat individuals who are involved with the criminal justice system and need behavioral health treatment, and
- \$555,000 one-time for a pilot project in OPLR to increase licensing opportunities.

#### Prevention

Increased housing costs and gaps in support for those exiting government systems further exacerbate the risk that portions of Utahns will experience homelessness. While access to housing is critical in solving the housing crisis, we need to take into account differing risks and needs across populations. Gov. Cox proposes \$10.2 million ongoing and \$185.3 million one-time for housing options tailored to different income levels and varying levels of need. Additional information on recommended housing initiatives can be found in the Growth section on pages 29-31.

Recent changes to federal Medicaid guidelines are helping provide more housing-related services for recipients. The governor supports using

FIGURE 9: Sequential Intercept Model

# SEQUENTIAL INTERCEPT MODEL

Source: Substance Abuse and Mental Health Services Administration

the Medicaid Expansion Fund and \$851,500 ongoing General Fund to pursue a Medicaid waiver that would draw down federal funds to expand the Housing Related Services and Supports<sup>21</sup> program and provide rental assistance for up to 6 months for eligible individuals.

Gov. Cox supports establishing a diversion court pilot program called HOME Court of a less restrictive, civil option for individuals with mental illness who do not meet the standard for civil commitment or other criminal diversion courts through \$641,000 ongoing funding for an additional judge and court staff as well as a \$10 million one-time investment in support services to be spent over 5 years at DHHS.

The Cox-Henderson administration acknowledges that making Utah a great place to live for all residents requires a response to the current crisis without losing sight of preventing homelessness in the long term.

The administration calls on other state and local elected officials, business and philanthropic leaders, and concerned citizens to continue the collaboration and education that has led to these recommendations.

## **ENHANCING VICTIMS SERVICES**

The Cox-Henderson administration prioritizes preventing abuse and supporting victims of domestic violence. The governor's FY25 budget recommendations back this commitment by funding staffing for victim service providers,

providing better resources to victims, and expanding prevention education.

The governor recommends the following:

- \$1 million ongoing to staff local victim service providers and shelters,
- \$220,000 for new positions at the State Information Analysis Center to handle a rise in lethality assessments conducted by officers across the state.
- \$1.7 million one-time for everyday resources for individuals staying at shelters, and
- \$330,000 one-time to provide victims with timely and reliable information about offenders.

Finally, the governor supports abuse prevention education and recommends \$4 million, including \$1 million ongoing, to implement age-appropriate curriculum in public schools. This investment aims to decrease the prevalence and impact of child sexual abuse, which currently affects 1 in 7 Utah children before the age of 18<sup>22</sup>—exceeding the national average. The proposed curriculum will equip Utah's children with knowledge and skills to identify, resist, and report abuse, while fostering a culture of safety and respect in schools and communities.

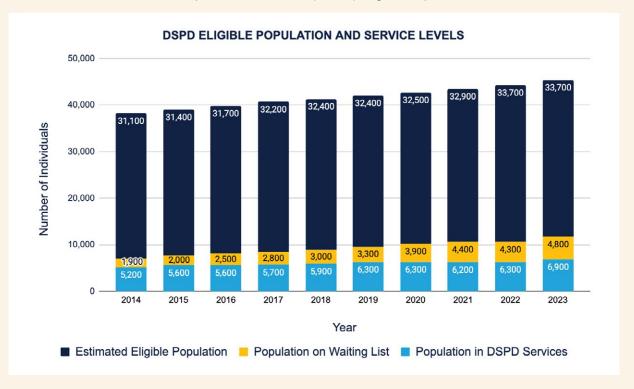

1 in 5

individuals counted in the 2023 homelessness point-in-time count who were survivors of domestic abuse

FIGURE 10: Division of Services for People with Disabilities (DSPD) Eligible Population and Service Levels

Source: Division of Services for People with Disabilities (DSPD), Utah Department of Health and Human Services

# EXPANDING ACCESS TO SOCIAL SERVICES

Ensuring the health and well-being of our communities means providing equitable care and services to every Utahn. This year, the governor recommends increasing access to services for vulnerable children and youth, Medicaid recipients, disabled individuals, and those affected by the opioid epidemic.

In response to disparities in care for children and youth in state custody, Gov. Cox recommends \$49.1 million to increase access to mental and behavioral health care and enhance shelter quality.

Gov. Cox supports increasing rates for essential care providers to help Utahns receive the care they need within the settings that best fit their situations. The FY25 governor's budget includes a \$7.3 million increase to providers who help

aging adult recipients stay in their homes and \$701,500 ongoing to primary care providers.

Utah has a growing number of people with disabilities waiting<sup>23</sup> for ongoing services as illustrated in Figure 10. Gov. Cox recommends \$14.1 million ongoing, which includes \$9.4 million in federal funds, to help 272 more recipients, focusing on individuals who have waited the longest for services. The governor recommends policymakers focus on the overall state need and find ways to support the system beyond just the waiting list numbers.

Utah expects to receive \$489 million from 2022 to 2039 as a result of multiple opioid-related settlements. This includes \$248 million for the state and \$241 million for counties. The governor urges the Legislature to consider the Opioid Settlement Advisory Committee's recommendations and provide housing support for individuals overcoming opioid use disorders.

PLANNING FOR GROWTH ENSURES OUR FUTURE

# GROWTH

- Aggressively address our housing shortage and barriers to homeownership
- Continue investing in water conservation and water infrastructure that support past efforts
- Enhance recreation opportunities, protect open spaces, and provide Utahns with transportation options that fit their needs

# **SUMMARY**

Utah was the fastest growing state between the 2010 and 2020 census, experiencing an 18.4% population increase. And that growth does not appear to be slowing down. Past planning efforts laid the foundation for Utah's current success. Now it is our turn to plan for the future. The FY25 governor's budget recommends investing in efforts to help all Utahns afford their own home. Ongoing efforts to conserve water, sustainably manage natural resources, and prioritize policies that enhance opportunities in rural areas will allow future generations to make Utah home.

## HOUSING

The Cox-Henderson administration believes that providing pathways to homeownership and affordable housing is the challenge of our generation Gov Cox recommends an ambitious investment of \$195.5 million to confront this issue head on by addressing attainable homeownership and affordable and deeply affordable housing.

#### **Utah First Homes**

Attainable homeownership is critical to wealth building, household stability, and upward mobility. In 2021, Utahns highlighted housing accessibility and cost as their primary growth-related concern.24 The University of Utah's Kem C. Gardner Policy Institute (GPI) reports that between the first guarters of 2020 and 2022, the median home sale price in Utah increased by 51%.25

In addition to rising home costs, interest rates have further exacerbated the affordability problem. In 2021, a Utah family needed an income of \$98,640 to afford the mortgage on the state's median-priced home; within 2 years, this rose to \$150,000. Gov. Cox is committed to reversing this trend and proposes the state provide bold leadership through a \$150 million investment in five areas as shown on page 30.

# UTAH FIRST HOMES

# **BUILDING 35,000 NEW STARTER HOMES BY 2028**

# Housing Innovation Advisor

Gov. Cox announces a new position within the Governor's Office to coordinate statewide housing policy. The housing innovation advisor will work with stakeholders from local government, the building community, and state agencies to develop a comprehensive strategy for tackling the state's housing supply and affordability challenges.

Building on the work of SB240, *First-time Homebuyer Assistance Program*, (J. S. Adams), the governor recommends an additional \$50 million to assist Utahns in securing their first home through downpayment assistance, interest rate buy-downs, and closing costs.

# \$50 M First-Time Homebuyer Assistance

# \$75 M

# State Infrastructure Bank Expansion for Housing

A barrier to new housing development is the expense of water, sewer, and roadway infrastructure. To address this, the governor recommends \$75 million to the State Infrastructure Bank to provide low-interest loans for publicly-owned infrastructure that supports housing.

The governor recommends \$5 million for innovations in starter home planning, design, permitting, and construction. More than ever, housing technologies and regulation need innovative solutions. This program will incentivize ambitious, feasible, and scalable solutions to address Utah's housing affordability.

# \$5 M Starter Home Innovation Fund

# \$15 M Sweat Equity

Gov. Cox recommends \$5 million for existing rural sweat equity programs. This investment will augment federal funds and allow prospective homeowners to contribute physical labor toward their down payment. Additionally, the governor recommends \$10 million to establish a comparable program for urban areas.

Community land trusts (CLTs) create affordable homeownership units and maintain their long-term affordability through deed restrictions or by separating ownership of the building and the land. Gov. Cox calls for \$5 million to implement and expand CLTs in the state.

# \$5 M Community Land Trust Expansion

# Off-Site Home Manufacturing

Modern, prefabricated homes are a vast upgrade from the manufactured homes of the past. Through existing tools such as the Rural Economic Development Tax Increment Finance (REDTIF) tax credit, Utah can recruit a manufacturer to the state to accelerate the production of new starter homes.

# Affordable and Deeply Affordable Housing

Affordable housing is an essential piece of the housing continuum and targets those households with incomes between 30 and 60% of Area Median Income (AMI). The state currently faces a shortfall of 68,000 units affordable to households at this income level. Due to expiring deed restrictions, Utah risks losing nearly 5,000 units of the existing affordable housing stock over the next 5 years.<sup>26</sup>

Building on recent efforts, the governor recommends \$10 million one-time in the Utah Housing Preservation Fund. This public-private partnership purchases affordable housing and ensures it remains affordable for an average of 20 more years. Gov. Cox also recommends \$5 million ongoing to the Olene Walker Housing Loan Fund, a state program that provides gap financing for affordable housing developments.

Deeply affordable housing is key to addressing homelessness and housing insecurity.

77,000

Households in Utah who need deeply affordable housing

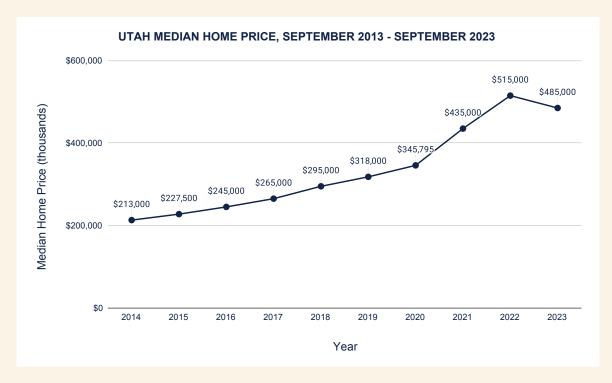

There are only 3 available units for every 100 extremely low-income households

Source: Kem C. Gardner Policy Institute

The governor recommends the following:

- \$25 million one-time to the Deeply Affordable Housing Grants Program to support the program's efforts to incentivize construction of deeply affordable housing units, and
- \$5 million ongoing to further support the services offered by the Deeply Affordable Stabilization Grant (formerly Attainable Housing Grants).

FIGURE 11: Utah Median Home Price, September 2013 - September 2023

## **WATER AND WATERSHEDS**

The Cox-Henderson administration is committed to effectively managing our natural resources and public lands as our population continues to grow. The governor recommends \$81.6 million to improve how we manage our water and watersheds.

#### Water

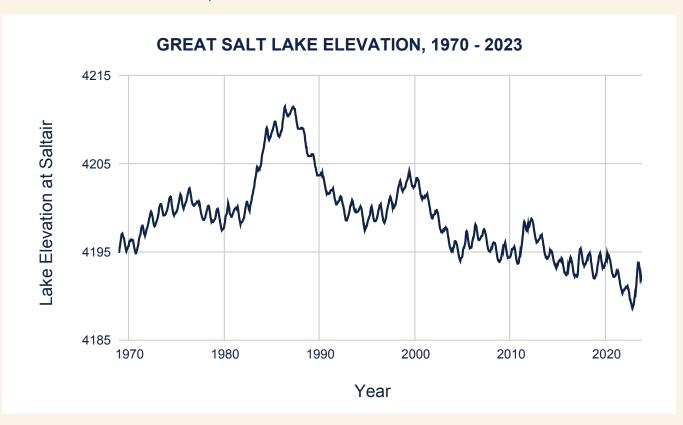

Utah continues to face water-related challenges, and rapid population growth further strains existing water resources. Gov. Cox prioritizes stewardship of our water resources through ongoing conservation efforts, strengthening our water infrastructure, and protecting our watersheds.

Understanding the importance of optimizing our limited water resources, the governor recommends a \$20 million one-time infusion to the Great Salt Lake Account to support lake preser-

vation efforts. Gov. Cox recommends investing \$1.75 million one-time from the Conservation and Development (C&D) Fund to help Utahns make more informed decisions regarding their water use by providing more informative water bills and training communities on water-wise land use practices. Additionally, the governor recommends increasing resources to improve measurements of our water systems (\$160,000 ongoing and \$37,500 one-time) and hiring a water resources planning specialist (\$136,500 ongoing). These investments will enhance water delivery decisions and coordinate statewide and basin water planning efforts.

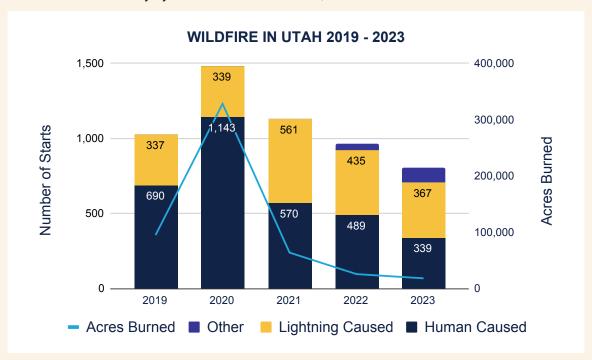

We must continue to invest in robust and resilient water infrastructure. Gov. Cox recommends \$20 million one-time to upgrade our aqueducts to be more resilient in the event of an earthquake, \$5 million one-time to upgrade the safety of our dams, and \$750,000 one-time to address

FIGURE 12: Great Salt Lake Elevation, 1970 - 2023

SOURCE: United States Geological Survey Great Salt Lake Hydro Mapper<sup>28</sup>

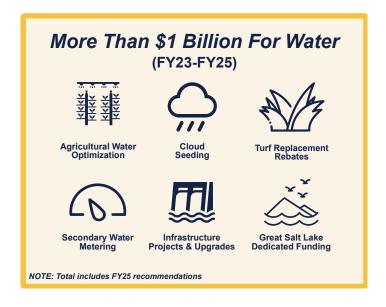

FIGURE 13: Utah Wildfire Summary by Cause and Acres Burned, 2019 - 2023

Source: Utah Division of Forestry, Fire, and State Lands

drinking water emergencies in small public water systems. These infrastructure upgrades will support the needs of millions of Utahns and mitigate risks to our statewide water system.

The health of Utah's water supply begins with healthy watersheds. To significantly enhance coordinated management efforts in priority watersheds, beginning with the Great Salt Lake Watershed, Gov. Cox recommends \$22.5 million one-time for the Ridgelines to Shorelines and Shared Stewardship initiatives. These landscape-scale watershed restoration and fuels-reduction efforts will restore forest health, reduce catastrophic wildfire risk, improve air quality, enhance wildlife habitat, and increase water quality and yield. Additionally, to reduce wildfire damage from human-caused fires affecting our watersheds, Gov. Cox recommends \$900,000 one-time (\$300,000 in FY24 and \$600,000 in FY25) for the award-winning Fire Sense Campaign. To restore previously burned areas, Gov. Cox recommends \$1 million one-time (\$500,000 in FY24 and FY25).

# TRANSPORTATION AND AIR QUALITY

The Cox-Henderson administration is committed to providing Utahns transportation choices so they can go where they want, when they want, in the way that they want—all while improving our

air quality. Aligning with this commitment, Gov. Cox recommends \$122 million in transportation and air quality investments.

As transportation demands increase, simply adding new lanes and roads will not be enough. Meaningful investments across our transportation system, including active transportation and public transit, will reduce the number of cars on our roads and improve road congestion and air quality.

To enhance Utah's transit system for improved convenience, frequency, and reliability, the governor recommends reallocating 1% (roughly \$45 million annually) of the sales tax earmark from the Transportation Investment Fund to the Transit Transportation Investment Fund. This change doubles ongoing funding for transit projects statewide, including the FrontRunner station at The Point.

When people think of the future of transportation, many think of flying cars and autonomous delivery vehicles. This vision is closer to reality than ever before. Gov. Cox recommends \$1.9 million, including \$400,000 ongoing and \$1.5 million one-time, to establish an innovation environment for the advanced air mobility and unpiloted aerial system industry. This program will enable the public and private sectors to develop concepts and technologies that benefit Utahns and promote industry growth.

#### Air Quality

Mobile sources, such as vehicles, contribute nearly 48%<sup>27</sup> of Utah's Particulate Matter 2.5 emissions. While Utah has made considerable progress in improving air quality, our growing population and federal air quality standards necessitate continued efforts. In 2018, the Environmental Protection Agency (EPA) classified Utah as moderately noncompliant with ozone

FIGURE 14: Statewide Transit Needs by 2050

**SOURCE:** Utah Unified Transportation Plan, Mountainland Association of Governments

standards. By 2026, the Division of Air Quality anticipates Utah will be re-classified as being in serious nonattainment. To ensure Utah's compliance with EPA's National Ambient Air Quality Standards and avoid potential federal penalties, the governor recommends hiring a dedicated state implementation plan coordinator to oversee new monitoring requirements and emission reduction plans to demonstrate Utah's compliance with federal standards (\$145,000 ongoing).

Providing Utahns with more public transportation options reduces the number of cars on roads and improves air quality. To increase convenience and access to public transit and boost ridership, Gov. Cox recommends \$2.5 million one-time for a pilot transit innovation grant program. Competitive grants will fund locally-designed projects, requiring recipients to provide matching funds.

## **INVESTMENTS IN RURAL UTAH**

The Cox-Henderson administration is dedicated to providing economic opportunity and a high quality of life for all Utahns, regardless of where they live. Gov. Cox recommends \$169.7 million for rural Utah, including significant investments in agricultural production capabilities, community infrastructure upgrades, and critical hospital infrastructure.

## Food Security Infrastructure

The governor supports enhancing Utah's agricultural processing infrastructure and food security. Past issues such as shortages of local food processing facilities and disruptions in the food supply chain have resulted in empty store shelves and lengthy wait times for local producers at meat-processing facilities. Gov. Cox recommends \$20 million one-time for the Central Utah Agri-Park to facilitate Utah-grown food production, processing, storage, and transportation. Additionally, the governor recommends \$1 million one-time for the Utah Department of Agriculture and Food's Food Security Program to provide grants that expand local food processing

infrastructure. These initiatives will lower costs for Utah's family farms and further strengthen our food security.

## **Rural Communities Opportunity Grant**

The Rural Communities Opportunity Grant supports rural communities in addressing critical economic development needs. Past projects include the Heber Valley Railroad in Heber City, the Hinckley Industrial Park in Hinckley Town, the water system in Hildale City, and general infrastructure in Beaver City. Gov. Cox recommends expanding the grant program by \$5.25 million one-time to accelerate capital improvements in Utah's rural business communities.

#### San Juan Hospital

The governor recommends \$20 million one-time to construct a new building to replace the San Juan Health Service District's aging hospital. The current facility is the state's oldest operating hospital building and provides essential medical services to rural communities.

## **RECREATION AND OPEN SPACE**

The Cox-Henderson administration understands that our high quality of life depends on access to recreation and open spaces. Gov. Cox recommends \$40.5 million to maintain and expand recreation infrastructure and services, improve recreation access, and preserve open spaces.

#### Recreation

To continue elevating recreation infrastructure and services as a core Utah value, the governor recommends investing a combined \$27.9 million (\$4.9 million ongoing and \$23 million one-time), from recreation fees, to maintain state park infrastructure and equipment, supply housing options for staff in remote destinations, and provide services for hunters and anglers. Additionally, the governor recommends \$5.5 million one-time from state park fees to provide additional visitor accommodations.

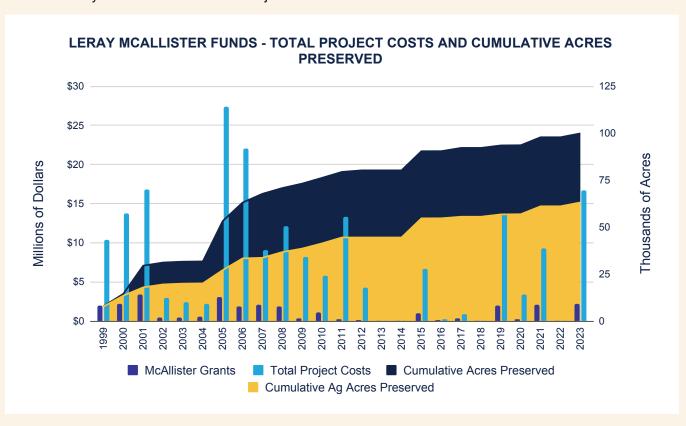

Utah's growing population and increased tourism are straining access to recreation. To address this, Gov. Cox recommends \$1 million one-time to research recreation access shortcomings and solutions in rural Utah. Additionally, the governor recommends \$1 million ongoing to provide real-time information on travel conditions, road incidents, and upcoming impacts for visitors to recreational hotspots like the Cottonwood canyons and Zion National Park.

recommends \$5 million one-time to preserve and restore natural and agricultural lands in high-development areas.

#### Agricultural Land

As Utah's land values increase, the risk of paving over prime agricultural soil increases, which threatens our food security and open space. Since 1999, the LeRay McAllister Working Farm and Ranch Fund has preserved nearly 100,000 acres—including more than 63,000 acres of agricultural land statewide. Utah's cumulative \$27 million investment has spurred more than \$174 million in non-state contributions. The governor

FIGURE 15: LeRay McAllister Funds - Total Project Costs and Cumulative Acres Preserved

PROVIDING FIRST-IN-CLASS CUSTOMER SERVICE FOR UTAHNS AND STATE EMPLOYEES

## GOOD GOVERNMENT

- Continue to prioritize investments in customer service, enhancing our ability to provide first-in-class customer experience
- Support performance-driven state employees, including targeted increases in critical positions
- Actively manage risks through strategic planning and key investments

### **SUMMARY**

Utahns deserve a state government that provides responsive, efficient, and effective services. A commitment to customer service empowers state employees to solve problems effectively, better meeting the needs of all Utahns. Utah is preparing for a more resilient future by proactively addressing key risk areas, investing in innovative technology, and enhancing data privacy.

## CUSTOMER SERVICE & EFFICIENCY

Gov. Cox is committed to using customer feedback to drive the most efficient use of taxpayer dollars to better meet the needs of those who interface with the state. The governor recommends \$5.5 million to improve customer service and \$12.7 million to enhance efficiency and innovation.

### Customer Service and Data Privacy

The state has developed a robust statewide customer experience program with a "no wrong door" system that enables customers to easily provide feedback and standardize feedback collection. The Cox-Henderson administration has an ongoing commitment to improving customer experience and protecting the privacy of their data.

Providing a statewide view of customer service facilitates informed decision making and empowers state government to solve problems effectively and efficiently, thereby better meeting the needs of all Utahns and those who interface with state government. Improving customer experience is an ongoing commitment. That is why Gov. Cox recommends \$3.2 million ongoing to sustain and further advance our pursuit of providing first-in-class customer experience. Additionally, Gov. Cox recommends \$530,000 ongoing and \$775,000 one-time for the Utah Department of Transportation (UDOT) and \$1

million one-time for the Tax Commission to add additional customer interaction capabilities that will be layered on top of the state's core customer experience platform.

To enhance data privacy measures, the governor established Executive Order 2023-06, which helps streamline a coordinated effort to protect personal data across all state agencies, including directing the development of a statewide privacy strategic plan. Additionally, Gov. Cox recommends \$1.1 million in privacy personnel investments for DHHS, Department of Natural Resources (DNR), Tax Commission, DPS, Department of Government Operations, and the State Auditor's Office to further protect personal identifiable information. Protecting the privacy of our customers is critical to enhancing the peace of mind of those who interact with Utah's state government and subsequently their trust in government.

### Efficiency and Innovation

Aligned with Utah's culture of fiscal prudence and innovative problem solving, the Cox-Henderson administration is committed to optimizing the efficient use of state resources through process improvement and strategic investments in technology.

GOPB conducts process improvement consultations, which are a close collaboration between agencies and GOPB, as well as efficiency evaluations<sup>29</sup> that are performed in a partnership with agencies, GOPB, and LFA. The team works closely with state agencies to identify inefficiencies, redundancies, and areas that are high risk or error prone; and then works with key stakeholders to identify improvements that will produce tangible results.

In 2023, updates to the state's performance reporting and efficiency process statute require

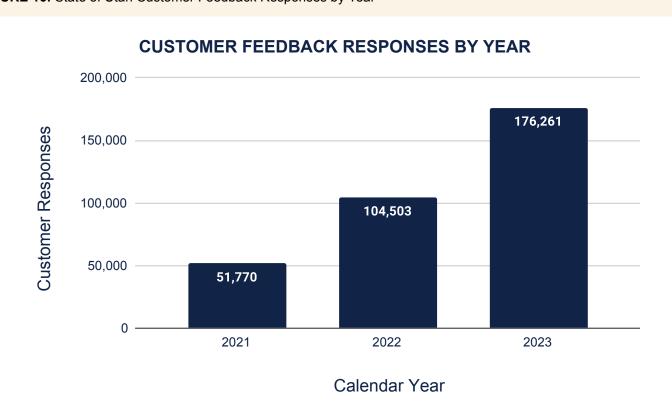

FIGURE 16: State of Utah Customer Feedback Responses by Year

Source: Governor's Office of Planning & Budget

agencies to report the status of implementation of new funding items<sup>30</sup> that receive more than \$50,000 of appropriations and performance measures for all new funding items that receive more than \$500,000 of appropriations. Additionally, annual reporting is required for all performance measures identified in appropriations bills line items.

In a rapidly evolving technology landscape, the Division of Technology Services (DTS) is at the forefront of enhancing technology for the state. Gov. Cox recommends \$350,000 ongoing and \$515,000 one-time to continue the support of verifiable digital credentials which give Utahns access to their securely stored information. The governor recommends \$520,000 one-time to start a pilot program in DTS to create safeguards around artificial intelligence while leveraging cutting-edge technologies and \$450,000 ongoing for DTS's innovation fund. Gov. Cox also recommends an additional \$370,000 ongoing and \$2.7 million one-time to support a more efficient and transparent DABS accounting program.

The governor recommends \$1.4 million one-time for software modernization for the Courts and \$215,700 ongoing to continue virtual jury selection in the Fourth District.

### FISCAL PRUDENCE

Utah has firmly established processes to promote strong fiscal management, such as establishing a 3-year cycle to analyze revenue trends, revenue volatility, and stress-test scenarios. As part of the stress-testing process, the state has identified a fiscal toolkit to guide the state's budgeting during both downturns and growth. This toolkit includes growing formal and working rainy day funds and other cash-management strategies, including issuing or pre-funding debt.

Utah is 1 of 14 states that maintains a AAA credit rating from all three rating agencies. The continued high credit rating is due to prudent debt management practices such as making debt

### AAA Credit Rating

Utah is 1 of only 14 states with a AAA credit rating from all three rating agencies

financing subject to constitutional and statutory limits. In FY23, the state appropriated \$250 million for debt service payments to cover future year building general obligation bond debt service payments. The Legislature appropriated a combined total of \$1.1 billion to pre-fund transportation debt service in FY24 and FY25, contingent on actual revenue collections meeting or exceeding revenue estimates. Gov. Cox recommends not issuing additional new general obligations bonds in FY24 or FY25, as well as retaining half (\$555 million) of the amount appropriated by the Legislature to continue pre-funding debt service. The governor's budget recommends reallocating the remaining half of the debt set-aside (\$555 million) to fund critical needs.

Additional details on outstanding bonds and debt service payments are available in Tables 19a-19c. More information about Utah's debt can be found in the Debt Affordability Study, compiled by the Utah Office of the State Treasurer.

### **MITIGATING RISK**

Ensuring Utah is a home for generations requires prudent planning and strategic investments in risk mitigation and resilience. Gov. Cox recommends \$173.3 million for emergency preparedness and response. This budget also addresses some key risks identified by Utah's Office of the

Risk areas are identified by Utah's Office of the Legislative Auditor General.

Legislative Auditor General.<sup>31</sup> Specific strategies and amounts for addressing each risk area are found on the pages identified in Figure 17. Gov. Cox also recommends \$18.9 million to address staffing and safety needs at the Utah State Correctional Facility (USCF).

The Wildland Fire Suppression Fund closed FY23 with a \$70 million balance and received additional General Fund appropriations of \$50 million, including \$10 million ongoing, in FY24. The governor recommends redirecting \$25.5 million of the FY24 one-time appropriations to replenish \$10.5 million spent from the State Disaster Recovery Restricted Account and set aside funding for property insurance deductibles.

### **Department of Corrections Staffing**

The Department of Corrections (Corrections) has faced staffing shortages and safety concerns at USCF. To address these concerns, the governor recommends reducing overtime through prudent use of one-time dollars, hiring safety personnel, and evaluating the current pay structure.

Gov. Cox recommends \$15 million one-time to pay for overtime expenses, which will free up existing ongoing funds to hire more staff and facilitate an end to mandatory overtime. Prioritizing the well-being of Corrections staff, the governor recommends \$3.5 million, \$2.7 million of which is ongoing to address critical staffing needs directly related to improving safety at the prison. The governor also recommends \$500,000 to evaluate the current pay structure through collaboration with GOPB and the Division of Human Resource Management (DHRM). Reducing overtime and hiring critical positions will improve safety and morale at Corrections.

### **EMPLOYEE COMPENSATION**

State of Utah employees are dedicated public servants who provide services that help make our state a home. Recognizing their pivotal role in the success of our government, Gov. Cox rec-

ommends \$156.7 million ongoing (\$84.1 million General Fund/ITF) and \$6.7 million one-time (\$1.2 million General Fund/ITF) for state employee compensation, and continues to support a performance-driven pay plan. An itemized breakdown of this investment, including compensation investments for higher education, is found on Table 22.

Additionally, Gov. Cox recommends transitioning all career-service positions to at-will positions. The governor recommends converting vacant career-service positions to at-will positions beginning on July 1, 2024. Gov. Cox also recommends no longer assigning career-service status to any new position, and exempting any employee hired after July 1, 2024 from career-service status. The governor intends for current employees to retain their career-service status, where applicable, unless they move into exempt positions.

### **CAPITAL BUDGET**

The \$2.8 billion capital portion of the state's operating and capital budget includes new state and higher education buildings, improvements to existing buildings, the public education capital outlays, state parks and recreation capital projects, construction of new roads, transit projects, and the distribution of mineral lease revenues for capital projects. Additional details on the budget for capital expenditures is provided in Table 18. In addition, the recommended budget includes \$354 million of transfers from the General Fund and ITF to various capital project funds (See capital budget transfers on Table 4).

The transportation infrastructure portion of the state's capital budget is managed by the Utah Transportation Commission, in consultation with UDOT and the state's Metropolitan Planning Organizations.

The Division of Facilities Construction and Management (DFCM) is responsible for ensuring capital facilities are efficiently managed and ef-

fectively implemented for the state of Utah. Part of this process includes annual updates to the 5-year building plan that presents current and future state building needs. This plan is submitted to the governor and Legislature annually when capital development and improvement projects are considered.

The aging inventory of state buildings and the rising cost of construction necessitates a more efficient and innovative approach to funding. During the 2023 General Session, SB168, State Agency Capital Development Fund (D. Buxton), created a new fund and invested \$125 million one-time for capital development or improvement of state agency facilities. Since FY23 revenue came in below the final estimates, the Legislature intends to rescind the \$125 million investment.

Gov. Cox recommends using new revenue to retain the \$125 million one-time investment and add \$25 million ongoing to enhance the fund. Much of this funding will be used for projects identified on DFCM's Statewide Master Plan and Renovation Fund, which focuses on renovating existing buildings and constructing new regional centers that will allow state agencies to provide services to residents in centralized locations throughout the state, while also allowing the state to generate savings by selling or repurposing vacant decentralized buildings. In addition to renovations and regional centers, Gov. Cox recommends prioritizing the following projects from this fund:

- DHHS High Acuity Behavior Assessment and Treatment Program
- DHHS USH Community ISTEP Facility
- Corrections West Jordan Behavioral Health Treatment Facility
- DHHS Office of the Medical Examiner
- DPS Evidence Warehouse

- DNR Aquatic Animal Health & Research Facility
- DPS State Emergency Operations Center

Other recommendations for capital building projects include \$50 million for the Huntsman Cancer Institute, \$10 million for Salt Lake Veterans Home construction, and \$19.5 million for the Snow College Social Science Classroom & Lab Building. A full list of funded buildings is presented under the Capital Budget section of Tables 10-12 and the detailed Capital Budget in Appendix C.

The recent creation of the State Store Land Acquisition and Building Construction Fund allows DABS to pay for new and remodeled liquor stores, as well as the new state liquor warehouse. Instead of issuing bonds, liquor sale profits will repay the fund, thereby generating a balance to be used for construction of new stores across the state. By paying for these buildings with cash, the state will avoid pricey interest rates and unnecessary loans. The governor recommends using these funds to begin the process of establishing new stores in Murray and South Salt Lake.

Owning and maintaining various types of buildings across the state is a costly endeavor. Funding is statutorily required at 1.1% of the total asset value of buildings across the state. The FY25 base budget will cover 1.25% of the total asset value. Gov. Cox is not recommending any additional adjustments for capital improvement funding in FY25 above the 1.25% already budgeted.

This table includes operating and capital budgets, including expendable special revenue funds and accounts, from all sources of funding. These sources of funding include state-collected funds from taxes and fees, plus federal funds, mineral lease revenues, higher education tuition, and a portion of local school property taxes. This table does not include transfers to restricted, enterprise, internal service, fiduciary, or capital project funds or accounts.

Other financing sources include bond proceeds and premiums. Nearly all funds reflected under Capital Project Funds are also appropriated in the Operating and Capital Budget (Tables 5a and 5b). Combining Capital Project Funds (this table) with the Operating and Capital Budget and other funds (as shown in Table 18) results in the double counting of some funds.

This table shows budgeted amounts for enterprise funds, including various loan funds and the Unemployment Compensation Fund. In some cases the net budget for a loan fund, comprised of the beginning balance, new revenues, and closing balance, will sum to \$0. This occurs because outstanding loans are included in the beginning and closing fund balances. These loans are not booked as expenditures.

This table shows budgeted amounts for enterprise funds, including various loan funds and the Unemployment Compensation Fund. In some cases the net budget for a loan fund, comprised of th beginning balance, new revenues, and closing balance, will sum to \$0. This occurs because outstanding loans are included in the beginning and closing fund balances. These loans are not booked as expenditures.

<sup>\*\$40,867,500</sup> new ongoing ITF is appropriated into the Public Education Economic Stabilization Account (per Utah Code 53F-9-204) and is used to fund one-time recommendations from this account, which results in it being double counted in the total. The governor's recommendation for public education is \$854.6 million.

This table displays the capital portion of the operating and capital budget summarized in Tables 5a and 5b. The budget for capital project funds is displayed separately in Table 7.

#### **TABLE 19a: DEBT LIMITS**

(in millions of dollars)

#### Legal Debt Margin

	2019	2020	2021	2022	2023
Taxable Value	298,114	329,096	353,750	393,665	504,084
Fair Market Value	415,650	461,064	497,914	559,692	728,724
Debt Limit Amount (1.5%)	6,235	6,916	7,469	8,395	10,931
Net General Obligation Bonded Debt	2,374	3,061	2,706	2,314	1,922
Legal Debt Margin	3,861	3,855	4,763	6,081	9,009
Net General Obligation Bonded Debt Percent of Limit	33.08%	44.26%	36.23%	27.57%	17.58%

Note: Article XIV, Section 1 of the Utah Constitution allows the state to contract debts not exceeding 1.5 percent of the total taxable property in the state.

#### **Statutory Debt Limit**

	2019	2020	2021	2022	2023
Appropriations Limitation Amount	3,911	3,990	4,162	4,412	4,845
Statutory Debt Limit (45%)	1,760	1,796	1,876	1,985	2,180
Net General Obligation Bonded Debt	2,374	3,061	2,706	2,314	1,922
Exempt Highway Construction Bonds	2,175	2,534	2,214	1,890	1,565
Net General Obligation Bonded Debt Subject to Limit	199	527	492	425	357
Additional General Obligation Debt Incurring Capacity	1,561	1,269	1,381	1,561	1,823

Article XIV, Section 5 of the Utah Constitution limits any funds borrowed to be used solely for purposes as authorized by law. In addition, Title 63J-3-402 of the Utah Code limits outstanding state general obligation debt to not exceed the 45 percent (unless approved by more than two-thirds of both houses of the legislature) of that fiscal year's appropriation limit. Net general obligation and revenue bonded debt includes principal, premiums, discounts, and deferred amount on bond refundings for years prior to 2014. Beainnina in 2014. deferred amount on refundina is no lonaer included.

Employee Compensation Increases

- 92 TABLE 22: Compensation Adjustments Summary
- 93 TABLE 23: Targeted Compensation Increases by Agency

#### **TABLE 22: COMPENSATION ADJUSTMENTS SUMMARY**

The governor recommends the following adjustments to state and higher education employees' salary and benefits.

Recommended Adjustments	GF/ITF		Other		Total
	Ongoing	One-time	Ongoing	One-time	
State Agencies					
COLA (2.3%)	26,957,900		24,718,800		51,676,700
Pay-for-Performance	18,597,400		19,497,300		38,094,700
Targeted Compensation	9,017,100		6,296,100		15,313,200
Employee 401(k) Match Increase		1,064,700		5,435,900	6,500,600
Health Insurance Increase (7.2%)	13,660,200		12,572,400		26,232,600
Dental Insurance Increase (0.9%)	70,500		61,600		132,100
Term Pool Rate Changes	3,847,100		7,777,200		11,624,300
Workers Compensation Rate Chage	609,300		466,000		1,075,300
Retirement Rate Changes	-3,941,700		-3,840,400		-7,782,100
Tier-II Retirement Employee Contribution & Equity	5,592,300		3,767,400		9,359,700
State Agencies Subtotal	\$74,410,100	\$1,064,700	\$71,316,400	\$5,435,900	\$152,227,100
Higher Education					
COLA (2.3%)	35,205,600		9,586,300		44,791,900
Health Insurance Increase (7.2%)	14,697,300		3,917,100		18,614,400
Dental Insurance Increase (0.9%)	66,700		17,000		83,700
Targeted Compensation	9,184,300		2,500,700		11,685,000
Higher Education Subtotal	\$59,153,900	\$0	\$16,021,100	\$0	\$75,175,000
Additional Agency-Specific Adjustments					
Alcoholic Beverage Services - Required (32B-2-301)	1,085,600				1,085,600
Auditor - Compensation Adjustment	206,300	103,100	168,800	84,400	562,600
Courts - Guardian ad Litem Attorney Compensation	1,325,500				1,325,500
Courts - Guardian ad Litem Pay-for-Performance	196,700				196,700
Courts - Guardian ad Litem At-Will Conversion	23,600				23,600
Courts - Pay-for-Performance	1,715,700				1,715,700
Courts - At-Will Conversion	624,100				624,100
Governor - CCJJ Reparation Program Retention & Compensation	206,300				206,300
Health and Human Services - Consolidation Salary Parity	1,760,000				1,760,000
Health and Human Services - Utah Developmental Disabilities Council					
Compensation Parity	200,000				200,000
Insurance - Fraud Investigator Salary Increase			210,000		210,000

Public Education - USDB Teacher Steps & Lanes	1,539,000				1,539,000
School and Inst. Trust Fund Office - Market Adjustments			660,900		660,900
School and Inst. Trust Lands Admin Pay-for-Performance			200,000		200,000
Additional Agency-Specific Adjustments Subtotal	\$9,726,200	\$103,100	\$1,239,700	\$84,400	\$11,153,400
Total Compensation Adjustments	\$143,290,200	\$1,167,800	\$88,577,200	\$5,520,300	\$238,555,500

#### **TABLE 23: TARGETED COMPENSATION INCREASES BY AGENCY**

The governor recommends funding for targeted salary increases to employees in the classifications below. Increases should only be administered to employees who are within the recommended classifications, but agencies have the flexibility to take into account employee performance and other factors when determining the exact increase given to an individual. The dollar amounts below are for General Fund, General Fund Impact, and Income Tax Fund sources unless noted otherwise.

Agriculture and Food			
Recommendation for Targeted Performance-based Increases			\$236,000
Classification Title	FTEs	Median Distance from Market	% Increase
Chemist/Microbiologist I	6.0	16.1%	5.0%
Chemist/Microbiologist III	1.0	40.5%	15.0%
Chemist/Microbiologist IV	1.0	35.4%	15.0%
Conservation Planner I	7.0	19.3%	7.5%
Conservation Planner II	3.0	26.1%	10.0%
Conservation Planner III	9.0	30.9%	12.5%
Conservation Planner, Supervisor	8.0	21.1%	5.0%
Inspector III, Agriculture	23.6	16.7%	7.5%
Inspector IV, Agriculture	11.8	23.0%	5.0%

# APPENDIX D

**Utah's Budget Process** 

#### **OVERVIEW**

The state of Utah's fiscal year runs from July 1 to June 30. The fiscal year is commonly referred to using the latter of the two calendar years. For example, fiscal year 2024-2025 is sometimes referred to as fiscal year 2025 or FY 2025.

Prior to legislative general sessions, the governor proposes a budget to the legislature. Under the state's Budgetary Procedures Act, "The total appropriations requested for expenditures authorized by the budget may not exceed the estimated revenues from taxes, fees, and all other sources for the next ensuing fiscal year."<sup>32</sup>

The state's enacted budget is the sum of all items of appropriation contained in legislation. Because the state budget is a representation of appropriations (authorization to expend funds), the state budgets on modified accrual basis, consistent with how government funds are reported in the Annual Comprehensive Financial Report (ACFR). Items of appropriation authorize expenditures and include the following: the name of the agency and line item to which authorization is granted; and the sources of finance from which authorization is granted; and the amounts authorized. Items of appropriation also may include a schedule of programs; intent language; approved full-time equivalent employment; authorized capital outlay; and other conditions of appropriations.

# REVENUE FORECAST

Each November, the Governor's Office of Planning and Budget (GOPB), Office of the Legislative Fiscal Analyst (LFA), and the Utah State Tax Commission engage in a consensus process to forecast state revenue collections for the cur-

rent and upcoming fiscal years. These forecasts are based on economic indicator projections provided by the state's Revenue Assumptions Working Group, which includes economists and field experts from the GOPB, LFA, Utah State Tax Commission, Utah Department of Workforce Services, University of Utah, and other representatives.

The governor's budget recommendations are based on the November revenue consensus forecasts. These forecasts are also updated during the legislative general session and inform legislative budgeting decisions. Consensus revenue estimates are published on the Utah Treasurer's Office Budget and Information website<sup>33</sup> and meeting materials for the legislature's Executive Appropriations Committee (EAC) website when revenue estimates are adopted.<sup>34</sup> Additional information on the economic indicators that inform revenue forecasts is included on GOPB's websites for Policy & Economic Analysis Reports<sup>35</sup> and Policy & Economic Analysis Dashboards.<sup>36</sup>

After the budget is enacted, GOPB, LFA, and the Utah State Tax Commission gather and analyze revenue collection data on a monthly basis.

#### BUDGET PREPARATION

Each year, officials from public education, higher education, and state agencies submit two items to GOPB: planned expenditures for their base budget and budget change requests. Common budget requests include costs associated with population growth, inflationary increases, and federal mandates. GOPB works with agencies to develop budget proposals that drive the best

investment and use of Utah's resources. After analyzing anticipated revenues, base budgets, and new budget requests, GOPB assists the governor in preparing final budget recommendations. The governor's budget recommendations are summarized in the governor's budget recommendation book and online content. The governor delivers his budget message and transmits his budget recommendations to the legislature through the legislature's staff budget office, LFA.

# **BUDGET APPROVAL & ADOPTION**

Thirty days prior to each general legislative session, the LFA, by statute, receives the governor's budget recommendations. The LFA is required to review this executive budget before the legislature convenes and to make recommendations and comments to the legislature on each item or program.

To enact law, including a budget bill, the legislature must pass an identical bill in both the House of Representatives and the Senate.

Utah is unique in that the appropriations committee is composed of the entire legislature that is divided into joint House and Senate appropriations subcommittees by topic, such as Public Education, Higher Education, Social Services, etc. After the LFA receives the governor's budget recommendations, it analyzes the recommendations and prepares its own recommendations for the legislature and its appropriation subcommittees.

The appropriation subcommittees analyze the budgets within their assigned topic area and submit their final recommendations to the EAC. EAC receives the recommendations from the joint appropriations subcommittees, makes final budgetary decisions to balance the budget, and directs the LFA to prepare appropriations bills. The appropriations bills are debated and the House of Representatives and the Senate pass the budget bills.

# BUDGET IMPLEMENTATION & EXECUTION

After the legislature passes the budget bills, the governor decides whether or not to sign the bills. Once a bill is signed by the governor, it goes into effect on the date specified in the bill. State agencies use the funding provided to them in the budget to carry out their responsibilities.

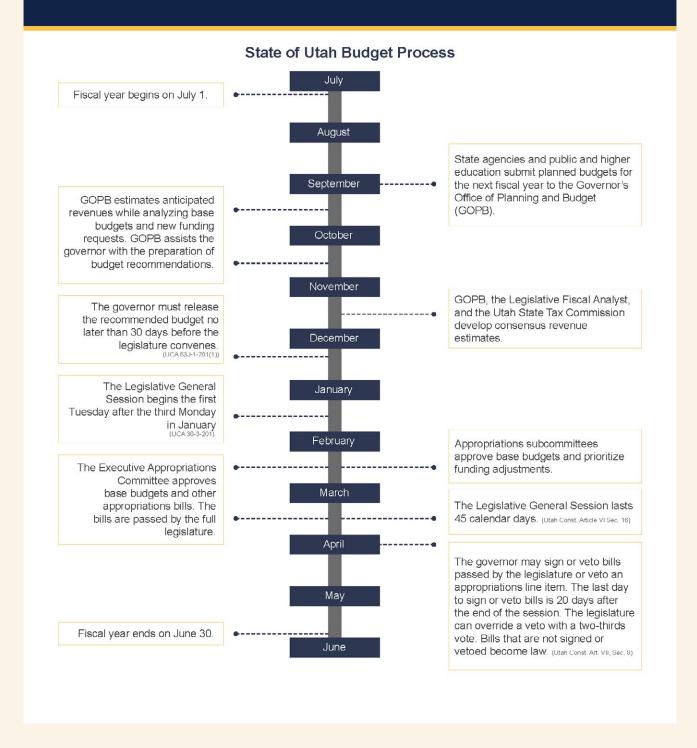

The LFA prepares an appropriations report annually that summarizes the actual enacted budget. The report and other legislative budget materials are available on <a href="https://budget.utah.gov">https://budget.utah.gov</a>. Details on agency budgets, missions, and programs are available in the LFA's Compendium of Budget Information (COBI).<sup>37</sup>

Since the state of Utah only appropriates onetime revenues and balances for one-time purposes, it is common for the governor's recommended budget and the enacted budget to hold back available one-time funding in one fiscal year so it can be used for one-time uses in a future fiscal year. A summary of sources, uses, and unappropriated balances from the General Fund, Income Tax Fund, and Uniform School Fund is displayed in Table 3. A similar table is typically provided in Table 11 of the Budget of the State of Utah after the budget is enacted.<sup>38</sup>

Besides the unappropriated General Fund, Income Tax Fund, and Uniform School Fund balances carried over from FY24 to FY25, the governor's FY25 budget recommendations do not anticipate any significant change in fund balances compared to the end of FY23 fund balances. A list of FY23 balances by fund is available in the FY23 Fund Balance Report.<sup>39</sup> Additional summaries of FY23 fund balances are available in the Financial Highlights and ACFR available on the Division of Finance Financial Reports website.<sup>40</sup>

## **BUDGET TIMELINE**

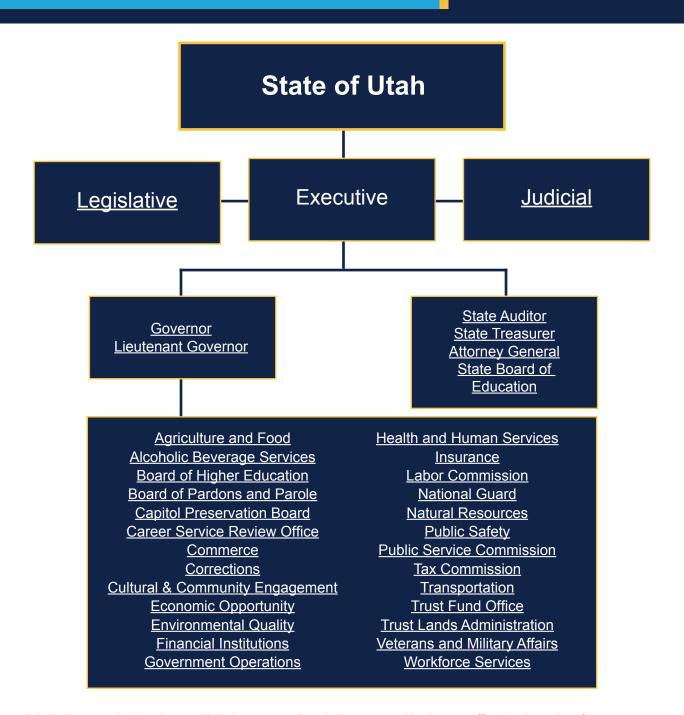

The state of Utah's fiscal year runs from July 1 to June 30. The fiscal year is commonly referred to using the later of the two calendar years. For example, fiscal year 2024-25 is sometimes referred to as fiscal year 2025 or FY25

## Glossary of Budget Terms

Term	Definition		
Actual Amount	The actual amount appropriated or expended in a given fiscal year. The actual expenditures may be less than the appropriated or authorized amount.		
Adjustment	A recommended one-time change in an amount appropriated in the current fiscal year or a recommended one-time or ongoing change in funding for the upcoming fiscal year.		
Administrative Rules	The detailed procedures established by state agencies to implement statute and programs.		
American Rescue Plan Act (ARPA)	ARPA is the federal stimulus program providing money to states, counties, cities, and tribal governments to cover increased expenditures, replenish lost revenue, and mitigate economic harm from the COVID-19 pandemic. It passed in 2021 and provided \$1.9 trillion in funding, \$1.3 billion of which came to the state.		
Appropriation	A legislative authorization to make expenditures and incur obligations.		
Authorized Amount	The amount appropriated for the current fiscal year.		
Backfill	The use of one-time funds (state or federal) to replace reductions in ongoing programmatic funding for one year.		
Base Budget	The starting point budget for a future fiscal year that reflects the previous fiscal year's ongoing appropriations.		
Basic School Program	The state's foundation program for funding public schools with funding based on the Weighted Pupil Unit and distributed to support basic educational programs for all public kindergarten, elementary, and secondary students in the state.		
Bill	A proposed law or statute presented to the Legislature for their consideration.		

Bill of Bills (Appropriations Adjustments)

A bill which contains funding for legislation that has fiscal impact and funding for other legislative action. It covers two fiscal years: the current fiscal year and the next.

**Board Local Levy** 

An optional property tax that local school boards may levy to fund their school districts' general funds. Additionally, the state guarantees a specific amount of funding per weighted pupil unit if school districts levy this tax. See Utah Code 53F-8-302.

**Bond** 

A certificate of indebtedness issued by a government entity as evidence of money borrowed. It is a written promise to pay a specified sum at a specified date or dates together with specific periodic interest at a specified rate. The primary bonds used by the state are General Obligation Bonds, Lease Revenue Bonds, and Revenue Bonds.

Budget

An itemized summary of estimated or intended expenditures for a fiscal year along with estimated revenues. The enacted budget is the sum of all appropriations in enacted bills.

Calendar Year

The year beginning 1 January and ending 31 December.

Capital Outlay

Expenditures which result in the acquisition or replacement of fixed assets other than computers and related hardware.

Consensus Revenue Forecast

A revenue projection developed in agreement through an official forecasting group representing both the executive and legislative branches.

Coronavirus Aid, Relief, and Economic Security Act (CARES) Passed in 2020 and provided \$2.2 trillion in funding in response to the COVID-19 pandemic. Funding included direct payments to citizens along with money for education, disaster relief, agriculture, energy, transportation, expanded unemployment benefits, and other purposes related to the pandemic.

Current Expense

An expenditure category which includes general operational expenses of the programs including: consultants, contracts, building maintenance, small office supplies, etc.

Data Processing Capital (DP

Capital)

The expenditure category that includes computer hardware, support equipment, systems, and software over \$5,000.

Data Processing Current Expense (DP Current Expense)

An expenditure category which includes costs incurred to operate information technology systems, such as Local Area Network (LAN) connections, software under \$5,000, and supplies.

Debt (General Obligation)

Debt backed by the full faith and credit of the state. Property taxes secure general obligation debt and general tax revenue pays for the debt service.

Debt (Revenue)

A bond that does not carry the "full faith and credit" of the state but rather pledges a revenue or lease stream to pay for debt service.

Debt Limit (Constitutional)

Caps total general obligation debt at 1.5 percent of total fair market value of taxable property.

Debt Limit (Statutory)

UCA 63J-3-402 limits general obligation debt to 45 percent of the allowable spending limit from the General Fund, Uniform School Fund, and Transportation Fund less debt service. A more-than two-thirds vote of both houses of the Legislature is necessary to exceed this limit.

**Debt Service** 

The money required to pay the current outstanding principle and interest payments on existing obligations according to the terms of the obligations.

**Dedicated Credits Revenue** 

Money that is paid to an agency by other agencies or the public for services or goods. The agency usually uses these dedicated funds to pay for its expenses in the manner it chooses and amounts can be spent up to 125% of the appropriated amount.

Earmark

A portion of a lump-sum amount designated for particular purposes by means of constitutional or statutory language.

Education Fund (EF)

See Income Tax Fund

Encumbrance

An obligation in the form of purchase orders, contracts, or salary commitments which an agency charges to an appropriation and for which the agency reserves a portion of its appropriation. Encumbrances cease when paid or when the actual liability is set up.

Enterprise Fund Fund established by a governmental unit which operates like a

business. Used by governmental units that cover most or all of

their operating costs through user charges.

Expendable Special Revenue Fund Funds and accounts that have a dedicated revenue source and

can be spent without legislative action.

Expenditures Expense categories for personnel, goods, and services needed

by state programs. These include: personnel services, in-state travel, out-of-state travel, current expense, DP current expense, DP capital, capital outlay, other charges/passthrough, and cost of

goods sold.

Families First Coronavirus Passed in 2020, FFCRA provided funding to address the Response Act (FFCRA) COVID-19 pandemic including paid sick leave, insurance

COVID-19 pandemic including paid sick leave, insurance coverage of coronavirus testing, nutrition assistance, and

unemployment benefits.

Federal Funds Money made available to the state by an act of the Federal

Congress. The Governor may accept on behalf of the State any federal assistance funds for programs that are consistent with the needs and goals of the State and its citizens and that are not prohibited by law. Generally, money comes to the State from the federal government with specific requirements. In many cases,

the State must provide a match in state funds or in-kind services.

Federal Medical Assistance

Percentage (FMAP)

FMAP is the federal government's share of most Medicaid expenditures. The remainder is referred to as the state share. The FMAP rate is used to reimburse states for Medicaid expenditures. The formula is designed so that the federal share is larger in states with lower per capita incomes relative to the national average.

Fee A fixed charge for a good or service usually recorded as

Dedicated Credit revenue.

Fiscal Note An estimate by the legislative fiscal analyst of the direct and

measurable costs, savings, revenue gains, or revenue losses associated with implementing a legislative bill. Fiscal notes are required for every bill and show impacts for state agencies, local

governments, individuals, and businesses.

Fiscal Year (FY)

An accounting period of 12 months at the end of which the

organization ascertains its financial conditions. The state fiscal year (FY) runs from July 1 through June 30. The federal fiscal

year (FFY) is from Oct. 1 through Sept. 30.

Fixed Assets Long-term assets which will normally last in excess of one year

such as land, buildings, machinery, furniture, etc.

Full Faith and Credit A pledge of the general taxing power of the government for the

payment of a debt obligation.

Full Time Equivalent (FTE)

A method of standardizing the personnel count. One person

working 40 hours per week for one year is equal to one full-time equivalent. Two people working 20 hours each per weeks are equal to one FTE. One FTE is any combination of hours that

equals a full-time 40-hour a week employee.

Fund An independent fiscal and accounting entity with a self-balancing

set of accounts.

General Fund (GF)

The primary or catchall fund of a government. It is similar to a

firm's general ledger account, and records all assets and liabilities of the entity that are not assigned to a special purpose

fund. It provides the resources necessary to sustain the

day-to-day activities with state government. When governments or administrators talk about 'balancing the budget' they typically mean balancing the budget for their general fund. The primary source of this revenue in Utah is sales tax, although there are

several other taxes that contribute to the General Fund.

General Obligation Bonds (G.O.) The full faith and credit of the State is the security for G.O. debt.

The state Constitution and statute limit the level of G.O. debt that

may be issued.

Grant A contribution by one entity to another without expectation of

repayment. This is usually made in support of some specified

function or goal.

Income Tax Fund Previously called the Education Fund. The Income Tax Fund

receives all revenues from taxes on intangible property or from income tax. It is the main funding source for public and higher education and provides funding for children and individuals with

disabilities.

Indirect Charges Costs that are not directly accountable to a cost object, such as

a particular project, function, service, or product. They are also called overhead shared expenses, and are often allocated rather

than computed. These can be either fixed or variable.

Inflation The rate of increase in prices over a given period of time

Infrastructure Investment and Jobs This act authorized \$1.2 trillion in spending to address long-term

investments in transportation, energy, water, broadband, public lands, environmental remediation. and resiliency. Funds are distributed through new and existing grant programs which are

managed at the state agency level.

Initiative A procedure by which citizens can propose a law and ensure its

submission to the electorate.

Intent Language A statement added to appropriations bills to explain or put

conditions on the use of line item appropriations. These statements are part of an appropriations act but expire at the end of the fiscal year. Intent language cannot replace or supersede

current statutes.

Interim The period between regular sessions of the Legislature.

Internal Service Fund A fund established by a governmental unit to provide goods and

services primarily to other governmental agencies. User charges usually finance these funds. ISFs employ business practices to take advantage of economies of scale, to avoid duplication of effort, and to provide an accounting mechanism to identify costs

of certain governmental services.

Lapse The automatic termination of an appropriation and the return of

the unexpended funds to the base fund.

Lapsing Funds Unspent money remaining at the end of the year reverts (or

lapses) back to the base fund unless otherwise designated.

Lease Revenue Bonds

The State Building Ownership Authority issues lease revenue

bonds as the official owner of state facilities. Debt service (usually paid over 20 years) comes from rents collected from

Act (IIJA)

user agencies and carries an interest rate slightly higher than general obligation debt.

Legislative Oversight

The responsibility of the legislature to review operations of executive and judicial agencies.

Line Item

Each appropriated sum has an item number in an appropriations bill. Each line item appropriation may have several programs. Once the appropriation becomes law, an agency may move funds from program to program within the line item, but not from one line item to another.

Maintenance of Effort (MOE)

An MOE requires entities to maintain their financial contribution to a program at not less than the amount of their contribution for some prior time period to ensure federal assistance results in an increased level of activity rather than replacing state dollars with federal dollars.

Minimum Basic Rate (Basic Levy)

The local property tax that school districts are required to levy to be eligible for state appropriations toward the Minimum School Program. Revenue from this tax is used to fund programs within the Basic School Program of the Minimum School Program. If a district does not generate enough revenue with this tax to fund its entitlement, the state makes up the difference. See Utah Code 53F-2-301.

Minimum School Program (MSP)

The framework for funding school districts and charter schools in Utah. The MSP is composed of multiple programs organized, according to funding source, into the Basic School Program, Related to Basic School Program, and the Voted & Board Local Levy Programs. The MSP funding consists of local property tax funds, state income tax funds, and other state-appropriated tax funds. The MSP funds are distributed according to formulas provided by state law, and State Board of Education rules. See Utah Code 53F-2.

Non-lapsing Funds

The Legislature can authorize an agency, via statute or intent language, to keep unused funds at the end of a fiscal year. Otherwise unexpended funds return (lapse) to their account of origin.

Obligations

Orders placed for goods and services, contracts and subawards made, and similar transactions that require payment.

One-time vs. Ongoing Funding Both revenue and expenditures may be one-time (short, distinct

period of time) or ongoing (lasting from year to year).

Operating Expenses Those costs which are necessary to the operations of an agency

and its program(s).

Operating Surplus The amount by which annual revenues exceed outlays.

Operations and Maintenance

(O&M) Expenses to clean and maintain facilities on a regular basis.

Pass-through An expenditure category for funds collected by one program or

agency and "passed-through" to another group for services or

expenditure.

Per Diem Daily allowance for living expenses that is provided to employees

when they are required to travel for work.

Personnel Services An expenditure category which includes all personnel costs,

including salary and benefits.

Rainy Day Fund A fund established by the State of Utah to ensure emergency

funding is available in the event of a crisis, economic downturn,

or emergency

Referendum A popular vote of the electorate on a measure adopted by the

Legislature.

Regulation A rule or order of an agency promulgated under the authority of a

statute.

Related to Basic School Program A group of programs intended to complement the general

education programs of the Basic School Program. These programs are funded by legislative appropriation and entirely

funded from state revenue sources.

Restricted Funds Accounts consisting of revenues restricted for use in or for

specific programs or purposes e.g. Transportation Fund, Uniform

School Fund, various General Fund-Restricted Funds.

Retained Earnings The accumulated earnings of an Internal Service Fund (ISF) or

Enterprise Fund (EF) still in the fund and not reserved for any

specific purpose.

Revenue The yield of taxes and other sources of income that the state

collects.

Revenue Bonds A bond for which the state guarantees repayment with revenues

generated by a specified revenue-generating activity associated with the purpose of the bond. For example, tuition could be dedicated to repay the revenue bond for a new classroom

building.

Revenue Surplus The amount by which annual collections exceed forecasted

revenue. The Legislature uses this in the context of Rainy Day

Fund deposits.

Shared Revenue Revenue levied by one governmental unit and distributed to one

or more other governmental units.

Short-term Debt Debt of less than one year.

Statute A written law enacted by a duly organized and constituted

legislative body and approved by the governor.

Supplemental Appropriation The adjustment of funds allocated over/under the original

appropriation. Generally, an increase in current year appropriations above the original legislative appropriation.

Surety Bond A written commitment to pay damages for losses caused by the

parties named due to non-performance or default.

Tax A compulsory charge or contribution levied by the government

on persons or organizations for financial support.

Transfers Movement of money from one governmental unit account to

another governmental unit account. (Usually reflects the

exchange of funds between line items.)

Transportation Fund

A revenue fund consisting primarily of revenue from fuel taxes. The state Constitution restricts this revenue to road and highway-related issues.

Unified Economic Opportunity Commission (UEOC)

Interbranch commission that recommends policy and budgetary changes regarding seven policy areas: talent, education, and industry alignment; housing affordability; women in the economy; water infrastructure and environment; growth and transportation; government efficiency and cooperation; and innovation. The governor chairs the commission, and many of the recommendations are included in the governor's annual budget.

Uniform School Fund (USF)

A source of revenue for purposes of public education. The Uniform School Fund is a special revenue fund within the Income Tax Fund.

Veto

An official action of the governor to nullify legislative action. The Legislature may override the action by a constitutional two-thirds vote of each house if still in session or if called back into a veto override session.

Voted & Board Local Levy Programs

Optional state-supported property tax guarantee programs. School districts may levy a voted or board local levy and receive a guaranteed amount of revenue per weighted pupil unit from the state.

Voted Local Levy

An optional property tax that individual school districts may levy only with voter approval. Additionally, the state guarantees a specific amount of funding per weighted pupil unit if school districts levy this tax. Utah Code 53F-2-601 & 53F-8-301.

Weighted Pupil Unit (WPU)

The basic unit of measure used to calculate a school's entitlement to funding for specific programs within the Minimum School Program. Every full-time student generates one WPU. Students with certain characteristics (e.g. special education, economically disadvantaged, etc.) receive additional WPUs.
