

EFFICIENCY AND PROCESS IMPROVEMENT COLLABORATIVE (EPIC)

WHAT IS EPIC

EPIC is a collaborative of government employees, with at least one representative from every state agency. Members meet quarterly in person and monthly remotely to share efficiency and improvement practices and integrate agency input and participation.

AGENCY PROJECTS

EPIC members submit internal improvement projects from their agencies, sharing the cost-savings, time-savings, and service improvements they've made.

MISSION

EPIC's mission is to foster a culture of continuous improvement that is collaborative and drives exemplary service for Utahns.

STATEWIDE IMPROVEMENT

EPIC is the platform from which we learn from agencies of their work and success, raise awareness of improvement efforts across state government, and engage a larger network of operational improvement champions across agencies.

TRAINING AND TOOLS

GOPB provides EPIC members with training, tools, and resources on efficiency and continuous improvement, which members then take back and apply within their own agencies.

AGENCY SUPPORT

EPIC members network, teach, and learn from one another, support and share what's working, and celebrate victories – building operational excellence leaders across state government.
